Permit No. G- 2188

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

of 7125 Fruitland Rd. M. E. Salem, country of Marion	
of 7125 Fruitland Rd. n. E. Lalem, county of Marion	· · · · · · · · · · · · · · · · · · ·
state of, do hereby make application for a permit to appropriate following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:	oriate the
If the applicant is a corporation, give date and place of incorporation	
1. Cina name of a superior of the superior of t	**** **********
1. Give name of nearest stream to which the well, tunnel or other source of water develo	pment is
situated Little Pudding (Name of stream) tributary of Ludding R	
	www.
2. The amount of water which the applicant intends to apply to beneficial use is feet per second or 33 gallons per minute.	cubic
3. The use to which the water is to be applied is Lugation	
4. The well or other source is located 56 ft. 5. and 2 ft E from the	. /\'/=
4. The well or other source is located 56 ft. 5. and 5 ft. From the corner of Le. 27 (Section or subdivision)	e urur fa
(Section or subdivision)	
(If preferable, give distance and bearing to section corner)	
being within the AL-14 AL-14 of Sec. 27, Twp. 7.3, R.	24
W. M., in the county of 27/22 com	
5. The to be	: !
(Canat or pipe line)	miles
(Smallest legal subdivision)	•
R. W. M., the proposed location being shown throughout on the accompanying map.	
6. The name of the well or other works is	
DESCRIPTION OF WORKS	
7. If the flow to be utilized is artesian, the works to be used for the control and conservation supply when not in use must be described.	on of the
8. The development will consist of	having a
diameter of Inches and an estimated depth of	129
feet of the well will require casing. Depth to water table is estimated	30

feet; depth of water feet; grade feet; grade feet fall per a feet; depth of water feet; width on bottom feet; width on bottom feet; width on bottom feet; depth of water feet; width on bottom feet; depth of water feet; beth of pipe, feet; size at intake, in; in size at in; size at intake, in; in size at in; size at intake in; is grade uniform? Length of pipe, ft.; size at intake, in; in size at in; difference in clevation between and place of use, ft. Is grade uniform? Estimated capace sec. ft. 1. If pumps are to be used, give size and type five horsepower and type of motor or engine to be used 25 H F. Tac 16. 1. If the location of the well, tunnel, or other development work is less than one-fourth mile frostream or stream channel, give the distance to the nearest point on each of such channels erence in elevation between the stream bed and the ground surface at the source of development with the fourth of the fourth of the feet of the nearest point on each of such channels. 1. If the location of area to be irrigated, or place of use 1. If the location of area to be irrigated, or place of use 1. If the source of development with the fourth of the source of development with the stream bed and the ground surface at the source of development with the stream bed and the ground surface at the source of development with the stream bed and the ground surface at the source of development with the stream bed and the ground surface at the source of development with the stream bed and the ground surface at the source of development with the surface at the source of the surface at the surface at the surface at the
feet; width on bottom feet; depth of water line) feet; width on bottom feet; depth of water feet; depth of water feet; depth of pipe. feet fall per one thousand feet. Length of pipe, ft.; size at intake, in.; in size at in.; difference in elevation between the difference in elevation between the stream or atream or the well, tunnel, or other development work is less than one-fourth mile from stream or atream channel, give the distance to the nearest point on each of such channels erence in elevation between the stream bed and the ground surface at the source of development. ### CO ft from Pulling Runner Suff or Market Street St
feet; width on bottom feet; depth of water line) feet; width on bottom feet; depth of water feet; depth of water feet; depth of pipe. feet fall per one thousand feet.
