- 14. Estimated cost of proposed works, \$ 17,000
- 15. Construction work will begin on or before March 20, 1961 by Burton Strayer
- 16. Construction work will be completed on or before April 4, 1962
- 17. The water will be completely applied to the proposed use on or before June 18, 1962

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. permits No. 37177 and No. 37176 also certificate of water Right (Volume 12 page 14566)

Remarks: \_\_\_\_\_  
*Marjorie E. Walters*  
*Judy K. Walters*

18. The proposed appropriation will duplicate a small portion of the coverage of some of the domestic well for some of the houses. A year ago when one of the above permits were applied for, the well was given up for a loss. Months later tried again and got water. However plans are now being made for more houses and housing projects as water was the only reason for not developing this site.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.27 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is group domestic use for not to exceed 83 families

If for irrigation, this appropriation shall be limited to - - of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 11, 1962

Actual construction work shall begin on or before January 24, 1964 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964

Complete application of the water to the proposed use shall be made on or before October 1, 1965

WITNESS my hand this 24th day of January, 1963
