APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, (WE) Harry E. Mason and Gertrude F. Mason  
(Name of applicant)  
of 2701 Cherry St., City of La Grande, county of Union  
(Postoffice Address)  
state of Oregon, do hereby make application for a permit to appropriate the  
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

(not a corporation)

1. Give name of nearest stream to which the well, tunnel or other source of water development is  
situated — Grande Ronde River  
(Name of stream)

tributary of Snake River

2. The amount of water which the applicant intends to apply to beneficial use is 0.9 (app. 1) cubic  
feet per second or 41 2/3 gallons per minute.

3. The use to which the water is to be applied is irrigation for agricultural  
purposes upon 5 acres of land

4. The well or other source is located 233 ft. S and 150 ft. E from the  
(N. or S.) (E. or W.)  
corner of SW corner of NE 1/4 of the NE 1/4 of Sec. 5 in Township  
(Section or subdivision)  
3 S, R. 38, E.W.M., Union County, Oregon (see maps)  
(if preferable, give distance and bearing to section corner)

(if there is more than one well, each must be described. Use separate sheet if necessary)  
being within the SE 1/4 NE 1/4 of Sec. 5, Twp. 3 S, R. 38,  
E. W. M., in the county of Union, State of Oregon

5. The (no canal or pipeline) to be miles  
(Canal or pipe line)  
in length, terminating in the of Sec. , Twp.

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is (none)

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the  
supply when not in use must be described.

(not artesian)

8. The development will consist of 2 NE wells having a  
(Give number of wells, tunnels, etc.)  
diameter of 36 inches and an estimated depth of 18 feet. It is known that 18  
feet of the well has require 18' concrete tile casing. Depth to water table is estimated 7 feet  
(Kind) (Feet)  
high water and 4 feet in low water

CANAL SYSTEM OR PIPE LINE - *not applicable*

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type - *one 14 inch centrifugal, Pacific Centrifugal Pump*

Give horsepower and type of motor or engine to be used *2 horsepower, electric*  
*Electric motor*

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

*River is more than 1/4 mile distant*

12. Location of area to be irrigated, or place of use .....

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
Commencing at a point 333.75 feet South of the Southwest corner of the Northeast quarter of Northeast quarter of Section 5, in Township 3 South, Range 38, East of the Willamette Meridian, in Union County, Oregon; thence East 667.5 feet; thence North 333.75 feet; thence West 667.5 feet; thence South 333.75 feet to the point of beginning.				
<i>3S</i>	<i>38E</i>	<i>5</i>	<i>SE 1/4 NE 1/4</i>	<i>5.0</i>

(If more space required, attach separate sheet)

Character of soil *= gravelly and shallow*  
Kind of crops raised *alfalfa and pasture*

MUNICIPAL SUPPLY— *not applicable*

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, *well has been in use 25 years, cost unknown*
- 15. Construction work will begin on or before— *has been completed*
- 16. Construction work will be completed on or before— *has been completed*
- 17. The water will be completely applied to the proposed use on or before *April, 1963*

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. *(not applicable — not supplemental)*

Remarks: .....  
*James E. Mason*  
(Signature of applicant)  
*Walter J. Mason*

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 28, 1963

**RECEIVED**  
DEC 7 1962  
STATE ENGINEER  
SALEM, OREGON  
*Walter J. Mason*  
ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 26, 1962

Actual construction work shall begin on or before February 15, 1964 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964

Complete application of the water to the proposed use shall be made on or before October 1, 1965

WITNESS my hand this 15 day of February, 1963

Chris L. Wheeler STATE ENGINEER
