Permit No. G-2296

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Parkrose School District #3
(Name of applicant)
of 10612 N. E. Prescott St., Portland 20, county of Multnomah,
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Approximately two miles south of the Columbia River
(Name of stream)
tributary of

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 150 gallons per minute.

3. The use to which the water is to be applied is Irrigation of school grounds and lawns.

4. The well or other source is located 475 ft. S. and 135 ft. W. from the N.E. corner of Lot Thirty-one (31), HAZELWOOD
(N. or S.) (E. or W.)
(Section or subdivision)
(2165 Ft. N. & 1185 Ft. E. from the SW Corner of Sec. 26)
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the Northwest quarter of the Southwest quarter of Sec. 26, Twp. 1 North, R. 1 N 2E, W. M., in the county of Multnomah

5. The None to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____
(Smallest legal subdivision)

R. _____ W. M., the proposed location being shown throughout on the accompanying map. Parkrose Russell Elementary School

6. The name of the well or other works is Parkrose Heights Junior High School

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

None

8. The development will consist of 1 well having a
(Give number of wells, tunnels, etc.)
diameter of 10" inches and an estimated depth of 400 feet. It is estimated that 400 feet of the well will require steel casing. Depth to water table is estimated 200
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
K M	2 X R	26	NW 1/4 SW 1/4	20
1 N	2 E	26	SE 1/4 NW 1/4	4.0

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY--

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$..... 5,384.00.....
- 15. Construction work will begin on or before June 15, 1962.....
- 16. Construction work will be completed on or before August 15, 1962.....
- 17. The water will be completely applied to the proposed use on or before October 1, 1962.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. See comments under remarks.

PARKROSE SCHOOL DISTRICT #3

(Signature of applicant)

Remarks: The appropriation of ground water being made by this application is for the same well described in Permit No. G-812.

The 4.0 acres to be irrigated is included in the 29.44 acres as itemized in question No. 12. The work called for in this project is to utilize the water from the well described in Permit No. G812 by the installation of an underground sprinkler system at the Russell School, which is tied directly into the existing sprinkler system at Heights Jr. High.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 28, 19 63.

WITNESS my hand this 27 day of November, 19 62

CHRIS L. WHEELER

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.05 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/800 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is November 15, 1962

Actual construction work shall begin on or before February 15, 1964 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964

Complete application of the water to the proposed use shall be made on or before October 1, 1965

WITNESS my hand this 15th day of February, 1963

Chris L. Wheeler
