

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Pendleton Country Club, Inc. of Pendleton, county of Umatilla state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

July 20, 1929, Pendleton, Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Birch Creek tributary of Umatilla River

2. The amount of water which the applicant intends to apply to beneficial use is 100 cubic feet per second or 14400 gallons per minute.

3. The use to which the water is to be applied is irrigation of golf course; commercial use in Club house (and domestic use in sub-division.) deleted also

4. The well or other source is located ft. and ft. from the corner of Section 21, T. 21 N., R. 20 E., S. 34, in Umatilla County, Oregon.

5. The proposed location being shown throughout on the accompanying map. The name of the well or other works is W. 21 N. 20 E.

DESCRIPTION OF WORKS

If the water to be utilized is artesian, the works to be used for the control and conservation of the water must be described

The development to be made consist of 1 well having a diameter of 12 inches and an estimated depth of 200 feet. It is estimated that the well will require casing. Depth to water table is estimated

CANAL SYSTEM OR PIPE LINE -

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet, width on bottom feet; depth of water feet; grade feet; fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet; fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Unknown at present

(Give horsepower and type of motor or engine to be used)

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development:

The well will be but a short distance - about 150 feet from Birch Creek, but it will be drilled with an oil rig, and cannot be drilled near. The difference in elevation will be about feet between the stream bed and the ground surface at well.

12. Location of area to be irrigated, or place of use

Table with 5 columns: Township N or S, Range E or W of Willamette Meridian, Section, Forty-acre Tract, Number Acres To Be Irrigated. Includes handwritten notes like 'enclosed' and 'Sketch'.

(if more space required, attach separate sheet)

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

14. Estimated cost of proposed works, \$ 25,000.00

15. Construction work will begin on or before March 19, 1956

16. Construction work will be completed on or before October 1, 1956

17. The water will be completely applied to the proposed use on or before July 1, 1956.

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same. SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well No. 1

The use to which this water is to be applied is irrigation, supplemental irrigation and use in clubhouse; being 1.98 c.f.s. for irrigation and supplemental irrigation and 0.02 c.f.s. for use in clubhouse.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein, and shall be still further limited to a diversion of not to exceed 2.0 c.f.s..

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 23, 1956

Construction work shall begin on or before June 25, 1957 and shall

be completed with reasonable diligence and be completed on or before October 1, 1957

and the use of the water to the proposed use shall be made on or before October 1, 1957

Witness my hand this 25th day of June 1956
