STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.45 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to 1/2 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed one acre foot per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the casing shall include proper capping and control valve to prevent the waste of ground water.

The well shall be constructed shall include an air line and pressure gauge or an access port for measuring and recording the static water level elevation in the well at all times.

October 3, 1955

Work shall begin on or before October 3, 1956

and shall be completed on or before October 1, 1957

Work shall be made on or before October 1, 1958
