

Permit No. G-248

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, William Smith

(Name of applicant)

of 346 Settler Avenue, Woodburn, county of Marion

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated

(Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 3.6 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is

irrigation & supplemental irrig

4. The well or other source is located ft. and ft. from the corner of

(N or S)

(E or W)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one well, each must be described. Use separate sheet if necessary.

being within the of Sec. Twp. R.

W. M. of the county of

The to be miles

acres terminating in the of Sec. Twp.

(Section or subdivision)

W. M. the proposed location being shown throughout on the accompanying map.

The depth of the well or other works is 3

DESCRIPTION OF WORKS

If the water to be utilized is artesian, the works to be used for the control and conservation of the artesian water must be described.

The development will consist of 1 well. (Give number of wells, tunnels, or

inches and an estimated depth of 100 feet. It is estimated that

will require casing. Depth to water table is estimated at

feet

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____
feet; width on bottom _____ feet; depth of water _____ feet;
grade _____ feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft.
from intake in.; size at place of use in.; difference in elevation between
intake and place of use, ft. Is grade uniform? Estimated capacity,
..... sec. ft.

10. If pumps are to be used, give size and type 400 GPM Turbine

Give horsepower and type of motor or engine to be used. 30 to 40 HP. 220V

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use _____

[illegible]

If more space required, attach separate sheet.

... and

Feb. 11, 1923, Wed.

MUNICIPAL SUPPLY--

13. To supply the city of
 in county, having a present population of
 and an estimated population of in 19.....

14. Estimated cost of proposed works, \$ 4000.⁰⁰

15. Construction work will begin on or before Upon Denance of Permit

16. Construction work will be completed on or before Oct 1, 1957

17. The water will be completely applied to the proposed use on or before Oct 1, 1958

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. 62 in SE NE SEC 13 suppl to well being registered

William D. Smith

Remarks:

STATE OF OREGON. /
 County of Marion. / ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer with correction on or before , 19 .

WITNESS my hand this day of . 19 .

STATE ENGINEER

County of Marion.

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 3.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from K. Smith Well No. 3

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 22, 1956

Actual construction work shall begin on or before June 25, 1957 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957

The completion of the water to the proposed use shall be made on or before October 1, 1958

WITNESSED my hand this 25th day of

June 1956
