Permit No. G- **2487**

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, **ANDREW DECONNICK** (Name of applicant)

of **Route 1, Box 460 Woodburn,** (Postoffice Address), county of **Marion**

state of **Oregon**, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

None

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated **Willamette River** (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is ~~5.09~~ **A.D.** cubic feet per second or **1200** gallons per minute.

3. The use to which the water is to be applied is **Irrigation**

4. The well or other source is located **1460** ft. **N.** and **1155** ft. **E.** from the **SW** corner of **Section 10** (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary)

being within the **NW 1/4 SW 1/4** of Sec. **10**, Twp. **5 S.**, R. **2 W.**

W. M., in the county of **Marion**

5. The **Canal or pipe line** to be **_____** miles in length, terminating in the **_____** of Sec. **_____**, Twp. **_____**

R. **_____** W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is **Well #2**

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of **One drilled well** (Give number of wells, tunnels, etc.) having a diameter of **12** inches and an estimated depth of **#2 109** feet. It is estimated that **109** feet of the well will require **3/16" steel** (Kind) casing. Depth to water table is estimated **10** (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type #2 50 Hp. electric 3 phase

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$.....
- 15. Construction work will begin on or before Completed
- 16. Construction work will be completed on or before Completed
- 17. The water will be completely applied to the proposed use on or before October 1, 1965

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. GR-2664, GR-2626

Andrew DeCoriarch
(Signature of applicant)

Remarks: Beginning at the Southeast corner of the Location Land Claim of Etienne Gregoire & wife Claim No. 79 in Township 5 South, Range 2 West of the Willamette Meridian in Marion County, Oregon, thence North 5° 32' East 3432.7 feet to the Northeast corner of said claim; thence North 81° 42' West 4724.1 feet to an iron pipe; thence South 5° 32' West 1580.4 feet to an iron pipe; thence South 82° East, 330.6 feet to an iron pipe; thence South 1° 02' East 327.4 feet to an iron pipe; thence North 83° 01' West 367.8 feet to an iron pipe; thence South 5° 32' West 1349.4 feet to an iron pipe; thence South 10° 41' East 2002.1 feet to an iron pipe; thence South 5° 32' West 45.1 feet, thence South 81° 41' East 2904.0 feet to the point of beginning.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion and correction

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before October 1, 1963

WITNESS my hand this 1 day of August, 1963

CHRIS L. WHEELER
STATE ENGINEER
By *Walter King*
ASSISTANT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.68 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well #1

The use to which this water is to be applied is Irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be further limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 15, 1963

Actual construction work shall begin on or before November 1, 1963 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1964

Complete application of the water to the proposed use shall be made on or before October 1, 1964

WITNESS my hand this 15th day of July, 1963
