Permit No. G-2496

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Robert M. Stuckart

(Name of applicant)

of Route 1, Sublinity

(Postoffice Address)

county of Marion

state of Oregon

, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Beaver Creek

(Name of stream)

tributary of Willamette via Mill Creek

2. The amount of water which the applicant intends to apply to beneficial use is 1.0 cubic feet per second or 450 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 14 Ch. x S and 4 Ch. W from the S.E. corner of the Philip Glover D. L. C. No. 65

(N or S)

(E or W)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well each must be described. Use separate sheet if necessary)

being within the NE 1/4 NW 1/4 of Sec. 34, Twp. 8 S, R. 1 W, W. M., in the county of Marion

5. The Modern Sprinkler System to be 3000/35 ft. miles in length, terminating in the of Sec. , Twp. R. W. M., the proposed location being shown throughout on the accompanying map.

(Smallest legal subdivision)

6. The name of the well or other works is Stuckart

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of One Well having a diameter of 10 inches and an estimated depth of 200 feet. It is estimated that feet of the well will require 50 feet casing. Depth to water table is estimated 208

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Deep well type

Give horsepower and type of motor or engine to be used 10 hp installed

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

One mile or more from Beaver Creek

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
8 S	1 W	34	NE $\frac{1}{4}$ NW $\frac{1}{4}$	13.5
			NW $\frac{1}{4}$ NW $\frac{1}{4}$	6.0

(If more space required, attach separate sheet)

Character of soil Mountain loam

Kind of crops raised Pasture, Hay & Prunes

MUNICIPAL SUPPLY--

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 3,000.00
- 15. Construction work will begin on or before Well was drilled during October, 1958
- 16. Construction work will be completed on or before October, 1958
- 17. The water will be completely applied to the proposed use on or before 1963

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Original irrigation

By STATE ENGINEER
ASSISTANT

STATE OF OREGON,
County of Marion,

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.24 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Stuart well.

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.4 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 26, 1962

Actual construction work shall begin on or before November 15, 1962 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1962

Complete application of the water to the proposed use shall be made on or before October 1, 1962

WITNESS my hand this 15th day of November, 1962
