CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____
feet; width on bottom _____ feet; depth of water _____ feet;
grade _____ feet fall per one thousand feet.

(c) Length of pipe, 6,000 ft.; size at intake, 4 in.; in size at 3,000 ft. from intake 3 in.; size at place of use 3 in.; difference in elevation between intake and place of use, 5 ft. Is grade uniform? yes Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Turbine Electric

Group horsepower and type of motor or engine to be used 20 3 ph. H.P. Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a pond, stream, or stream channel, give the distance to the nearest point on each of such channels, and the difference in elevation between the stream bed and the ground surface at the source of development.

10. Location of area to be irrigated, or place of use Sections 3 and 4 T. & A.R. 2 W.

Tract	Section	Forty-acre Tract	Number Acres To Be Irrigated
2000	3	SW1/4	24.64
2000	4	SW1/4	9.36
Total			34.00

If more space required attach separate sheet.

Remarks:

STATE OF OREGON, |
 County of Marion, | ss.

This is to certify that I have examined the foregoing application, together with the accompanying and data and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections, on or before 19

WITNESS my hand this day of 19

STATE ENGINEER

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed **0.38** cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from **Carson well**

The use to which this water is to be applied is **irrigation**

If for irrigation, this appropriation shall be limited to **1/80** of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed **2 1/2** acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line adequate to determine water level elevation in the well at all times.

The priority date of this permit is **May 28, 1956**

Actual construction work shall begin on or before **June 19, 1957** and shall

thereafter be prosecuted with reasonable diligence and be completed on or before **October 1, 1957**

Closest application of the water to the proposed use shall be made on or before **October 1, 1958**

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

WITNESSETH and this 19th day of June

John A. Stanley
