Permit No. G-2567

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Agricultural Engineering Department, Oregon State University, Corvallis, county of Benton

do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 250 cubic feet per second or 250 gallons per minute.

3. The use to which the water is to be applied is Irrigation of field crops for research purposes.

4. The well or other source is located 180 ft. south and 670 ft. east from the SSE corner of Jeremiah V. Lewis D.L.C. 45 being within sections 7 & 8 T. 11 S., R. 4W of Willamette Meridian.

being within the SE 1/4 SE 1/4 of Sec. 7, Twp. 11 S., R. 4 W. W. M., in the county of Benton

5. The (no permanent pipeline, at least not initially) be 0 miles in length, terminating in the of Sec. 7, Twp. 11 S., R. 4 W. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is (no name)

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 (one) well having a diameter of 8 inches and an estimated depth of 85 feet. It is estimated that 35 feet of the well will require standard black pipe casing. Depth to water table is estimated

CANAL SYSTEM OR PIPE LINE— (Portable surface pipe will be used)

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type ... 250 gpm deep well turbine pump if well will produce this much.

Give horsepower and type of motor or engine to be used ... 15 hp electric motor, probably

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
11 S	4 W	7	SE 1/4 of SE 1/4	33. acres
11 S	4 W	7	SW 1/4 of SE 1/4	24.5 acres
11 S	4 W	7	E 1/4 of SE 1/4 of SW 1/4	0.8 acres
11 S	4 W	8	W 1/2 of SW 1/4 of SW 1/4	10. acres

(If more space required, attach separate sheet)

Character of soil ... Woodburn clay loam

Kind of crops raised ... field crops - grasses, legumes & cereals

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$..... 9,000.00.....

15. Construction work will begin on or before July 1, 1964.....

16. Construction work will be completed on or before July 1, 1970.....

17. The water will be completely applied to the proposed use on or before July 1, 1968.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

By ASSISTANT

STATE OF OREGON, }
County of Marion, }

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.56 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is January 17, 1964

Actual construction work shall begin on or before March 10, 1965 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1965

Complete application of the water to the proposed use shall be made on or before October 1, 1966

WITNESS my hand this 10th day of March, 1964

Chris L. Wheeler
STATE ENGINEER
