

Permit No. G-2617

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, William L. Hulse (Name of applicant)

of Dafur, (Postoffice Address), county of Wasco,

state of Oregon, do hereby make application for a permit to appropriate the following described groundwaters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Ramsey Creek (Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is .33 + .07 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is Supplemental Irrigation

4. The well or other source is located 400 ft. N (N or S) and 200 ft. (E or W) from the corner of Sec. 31 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE - SE of Sec. 31, Twp. 15, R. 13E, W. M., in the county of

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. , Twp. , R. , W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Hollister

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of See Remarks (Complete number of wells, tunnels, etc.) having a diameter of inches and an estimated depth of feet. It is estimated that feet of the well will require (Kind) casing. Depth to water table is estimated (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 15 H.P. Cent. - 10 H.P. Cent.

..... 4 In. Suction - 4 In. Discharge

Give horsepower and type of motor or engine to be used Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
7 S	12 E	31	SE - SE	6.6
		32	SW - SW	.7
			SE - SE	33.6
			SW - SW	34.6
			NW $\frac{1}{4}$ - NW $\frac{1}{4}$	—
				75.1

(If more space required, attach separate sheet)

Character of soil Senty Loam

Kind of crops raised Grass - Alfafa

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$.....1,000.00.....
- 15. Construction work will begin on or before Some exists- Other April 20, 64
- 16. Construction work will be completed on or before May 1, 64 Sent.
- 17. The water will be completely applied to the proposed use on or before June 1, 64

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Cert. No. 5666, 27900; permit No. 28174

Application being submitted for primary from IS - Hi. creek

William T. Hulce
(Signature of applicant)

Remarks: I have just purchased the Harvey Mcallister place on which
this well is located. This is the same well filed on under permit
No. 28174. The well log, pump, and motor are the same as before.
I will install a meter on this well. The water will be put
in Hussey Creek, and carried out onto the land an approximately 1/2 mile
down stream. These pumps will also be equipped with meters.
Hussey Creek becomes part of Fifteenmile Cr. between the
well and the pumps.
I refer to the name of primary rights mentioned above for
location of the irrigated lands.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion
..... completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before July 6, 1964
August 31, 1964

WITNESS my hand this 6th day of May, 1964
30th day of June, 1964.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.95 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from McAllister well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

April 21, 1964 for 0.88 c.f.s.

The priority date of this permit is July 10, 1964 for 0.07 c.f.s.

Actual construction work shall begin on or before July 31, 1965 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1965

Complete application of the water to the proposed use shall be made on or before October 1, 1966

WITNESS my hand this 31st day of July, 1964
