STATE ENGINEER SALEM, OREGON
STATE ENGINEER SALEM, OREGON
Permit No. G-2695

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, City of John Day
(Name of applicant)
of John Day, county of Grant,
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

February 23, 1901

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated John Day River
(Name of stream)
tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 863 gallons per minute.

3. The use to which the water is to be applied is City Government Water Utility
Municipal use by the City of John Day

4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the corner of South 74° 59' West a distance of 1755.6 feet from the
(N. or S.) (E. or W.)
One Quarter Corner Common to Sections 23 and 24, Township
(If preferable, give distance and bearing to section corner)
13 South, Range 31 East, W.M.
(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW 1/4 SE 1/4 of Sec. 23, Twp. 13 S, R. 31 E, W. M., in the county of Grant

5. The Pipeline to be approx. 3/4 miles
(Canal or pipe line)
in length, terminating in the City Reservoir of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(Smallest legal subdivision)

6. The name of the well or other works is Well #3

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

The well is cased and capped with a shut-off valve (gate valve), 10"

8. The development will consist of one well having a
(Give number of wells, tunnels, etc.)
diameter of 16" inches and an estimated depth of 250' feet. It is estimated that 30
feet of the well will require steel casing. Depth to water table is estimated artesian
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, $3/4$ mile _____ ft.; size at intake, _____ in.; in size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? no. Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type _____ 600 Gallon CPM Centrifugal

Give horsepower and type of motor or engine to be used _____ To be determined

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Approximately 30 feet

12. Location of area to be irrigated, or place of use _____ John Day, Oregon (Municipal use)

Township North S.	Range E. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
13 S	31 E	22	SE ⁴ SE ⁴ ; S ² NE ⁴ SE ⁴	60 Acres
			Portions of SW⁴SE⁴	
		23	NW ⁴ SW ⁴ ; Portions of NE ⁴ SW ⁴ , NW ⁴ SE ⁴ , SW ⁴ SE ⁴	134 Acres
			$1/2$ SW ⁴	
		24	$1/2$ NW ⁴ ; SW ⁴ NE ⁴ ; Portions of NW ⁴ NW ⁴ SW ⁴ NW ⁴ , NW ⁴ NE ⁴	261 Acres
			NE ⁴ NE ⁴ , NW ⁴ SW ⁴ , NE ⁴ SW, NW ⁴ SE ⁴	
			SW ⁴ SE ⁴	
		25	Portions of NW ⁴ NW ⁴	12 Acres

(If more space required, attach separate sheet)

Character of soil _____

Kind of crops raised _____

MUNICIPAL SUPPLY—

13. To supply the city of John Day and fringe area
in Grant county, having a present population of 1800
and an estimated population of 2200 in 1968.

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

14. Estimated cost of proposed works, \$ 200,000.00 (including additional reservoir space)

15. Construction work will begin on or before Well completed, in July, 1963,

16. Construction work will be completed on or before July 1, 1964

17. The water will be completely applied to the proposed use on or before July 1, 1964

18. If the ground water supply is supplemental to an existing water supply, identify any appli-
cation for permit, permit, certificate or adjudicated right to appropriate water, made or held by the
applicant. Permit for Well #1, Permit for Well #2, and Permit for Spring Water

CITY OF JOHN DAY, OREGON

By Francis Cole
(Signature of applicant) City Recorder

Remarks: _____

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying
maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with correc-
tions on or before August 17, 1964.

WITNESS my hand this 17th day of June, 1964.

AUG 17 1964

CHRIS L. WHEELER
STATE ENGINEER

By Walter J. Perry
ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

} ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.34 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well #3

The use to which this water is to be applied is Municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 31, 1964

Actual construction work shall begin on or before October 12, 1965 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1966

Complete application of the water to the proposed use shall be made on or before October 1, 1967

WITNESS my hand this 12th day of October, 1964

Chris L. Wheeler

STATE ENGINEER
