APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, William G. Jenkins (Name of applicant)

of Route 2 Box 95 Pandleton Oregon, county of Umatilla (Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Birch Creek (Name of stream) tributary of Umatilla River

2. The amount of water which the applicant intends to apply to beneficial use is 120 cubic feet per second or 120 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 1140 ft. South and 820 ft. West from the NE corner of Section 27 Township 1 N R 32 E W. M. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the N.E. Quarter of N. E. Quarter Sec. 27, Twp. 1 N, R. 32 E, W. M., in the county of Umatilla

5. The pipe to be miles in length, terminating in the N.E. and S.E. 1/4 of N.E. Q of Sec. 27, Twp. 1 N R. 32 E, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 Well having a diameter of 10 inches and an estimated depth of 188 feet. It is estimated that feet of the well will require 98 casing. Depth to water table is estimated 50 (Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Line Shaft turbine

Give horsepower and type of motor or engine to be used 15 HP Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use N.E. and S.E. 1/4 of N.E. 1/4

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
I N	32 E	27	N.E. 1/4 of N.E. 1/4	24.36
I N	32 E	27	S.E. 1/4 of N.E. 1/4	14.08

(If more space required, attach separate sheet)

Character of soil pilot Rock silt loam

Kind of crops raised Alfalfa, Grass for pasture and wheat

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ \$5000.00
- 15. Construction work will begin on or before March 17 1964 John Hershney Driller
- 16. Construction work will be completed on or before July 1964
- 17. The water will be completely applied to the proposed use on or before August 1964

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

William H. Jenkins
(Signature of applicant)

Remarks:

I would like to have available rights applied first to the tract marked No 1 in the accompanying map. Any available rights I should like to have applied to the tract marked No 2, which would be left from the acreage in No 1. I would like a supplemental right to irrigate field No 2 at least twice per season. The next will be in alfalfa or grass & will require constant irrigation.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for correction

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before August 7, 19 64

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.27 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from A well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 2, 1964

Actual construction work shall begin on or before October 12, 1965 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1966

Complete application of the water to the proposed use shall be made on or before October 1, 1967

WITNESS my hand this 12th day of October, 1964
