

Permit No. G- 275

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Roy D. Springer and Eva P. Springer (Name of applicant)

of Harbor, county of Curry (Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Pacific Ocean (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 0.10 cubic feet per second or 45 gallons per minute.

3. The use to which the water is to be applied is Irrigation

Dug sump

4. The well or other source is located 736 ft. N. and 308 ft. E. from the corner of Meander corner common to Sections 8 and 9 (Section or subdivision)

(If preferred, give distance and bearing to section corner)

(If the well or other source is to be described, use separate sheet, if necessary)

In application, the NE 1/4 of the SW 1/4 of Sec. 9, Twp. 41 S., R. 13 W., W.M. of the county of Curry

The pipe line to be 500 feet

located from center in the NE 1/4 of the SW 1/4 of Sec. 9, Twp. 41 S., R. 13 W., W.M.

the proposed location being shown throughout on the accompanying map.

The well is to be a dug sump.

DESCRIPTION OF WORKS

If any special methods or devices are to be used for the control and conservation of the water, their nature must be described.

Dug sump 50' x 25' x 18' deep

The development will consist of

(Give number of wells, tunnels, etc.)

(Give depth)

inches and an estimated depth of feet. It is estimated that

the well will be a dug sump casing. Depth to water table is estimated

(Give)

(Give)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, **600** ft.; size at intake, **1 1/2** in.; in size at **50** ft. from intake **3"** in.; size at place of use **3"** in.; difference in elevation between intake and place of use, **10.0** ft. Is grade uniform? **yes** Estimated capacity _____ sec. ft.

10. If pumps are to be used, give size and type **1 1/2 in. centrifugal with 5 HP electric motor**

Give horsepower and type of motor or engine to be used _____

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development _____

12. Location of area to be irrigated, or place of use

Township North	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
41 S	13 W	9	NE 1/4 of the 3/4	7.4

(If more space required, attach separate sheet)

Character of soil **Coast loam**

Kind of crops raised **lilly bulbs**

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19 _____

14. Estimated cost of proposed works, \$ 1200.00

15. Construction work will begin on or before now completed

16. Construction work will be completed on or before _____

17. The water will be completely applied to the proposed use on or before August 1 1956

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Roy D. Springer
Eva P. Springer
(Signature of applicant)

Remarks: This application covers an existing sump which fills from ground waters from the ordinary water table. pump and pipe lines are in place. water will be used for irrigation during dry periods only.

STATE OF OREGON |
City of Marion. | ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19 _____

WITNESS my hand this _____ day of _____, 19 _____

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.09 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from ...

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/50 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed ... acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the floor is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring flow adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 27, 1911.

Actual construction work shall begin on or before July 1, 1911 and 1912

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1911.

Complete application of the water to the proposed use shall be made on or before October 1, 1911.

WITNESS my hand this ... day of ... 1911.

Handwritten signature and stamp of the State Engineer.
