If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Unnamed Gulch, tributary Larson Creek
(Name of stream)
tributary of Bear Creek

2. The amount of water which the applicant intends to apply to beneficial use is 0.16 cubic feet per second or _____ gallons per minute.

3. The use to which the water is to be applied is irrigation

No. 2 Well
No. 1 Well The well or other source is located 925 ft. 1610 ft.
815 ft. N. and 2040 ft. E. from the SW
(N. or S.) (E. or W.)
corner of Section 23
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 SW 1/4 of Sec. 23, Twp. 37 S., R. 1 W.
W. M., in the county of Jackson

5. The pipe line to be 1400 feet
(Canal or pipe line)
in length, terminating in the SW 1/4 SW 1/4 of Sec. 23, Twp. 37 S.
(Smallest legal subdivision)
R. 1 W., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Napolitano Well No. 1 and No. 2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of a well (Well No. 1) and a sump (Well No. 2)
(Give number of wells, tunnels, etc.)
having a diameter of 6 inches and an estimated depth of 180 feet. It is estimated that 31 feet of the well will require 250" casing. Depth to water table is estimated 140'
(Kind) (Feet)
Well No. 2 a sump 110 feet long, 50 feet wide west end, 20 feet at east end, 12 feet deep water occurs in a shale seam at east end of sump.

2787

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 1400 ft.; size at intake, 3 in.; in size at ft. from intake in.; size at place of use 3 in.; difference in elevation between intake and place of use, + 50 ft. Is grade uniform? Yes. Estimated capacity, 0.25 sec. ft.

10. If pumps are to be used, give size and type centrifugal pump - 2 1/2" intake, 2" discharge.

Give horsepower and type of motor or engine to be used 3 H.P. Electric Motor.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development 300 ft. South to tributary Larson Creek. Intermittent stream channel through property.

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
37 S.	1 W.	23	SW 1/4 SW 1/4	2.2 acres
			SE 1/4 SW 1/4	10.8 acres

(If more space required, attach separate sheet)

Character of soil rocky.

Kind of crops raised pasture.

MUNICIPAL SUPPLY--

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19 _____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2500.00
- 15. Construction work will begin on or before 1 year from date of priority.
- 16. Construction work will be completed on or before October 1, 1966
- 17. The water will be completely applied to the proposed use on or before October 1, 1967
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

(Signature of applicant)

Remarks: _____

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19 _____

WITNESS my hand this _____ day of _____, 19 _____

STATE ENGINEER
By _____
ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well and sum...

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 21 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 23, 1964

Actual construction work shall begin on or before January 8, 1966 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1966

Complete application of the water to the proposed use shall be made on or before October 1, 1967

WITNESS my hand this 8th day of January, 1965

Chris L. Wheeler STATE ENGINEER
