

Permit No. G-2900

CERTIFICATE NO. 34730

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, ROSS E. HINTON (Name of applicant) of Rt 3-Box 111 Milton Tree Water Ore, county of Linn, state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated. No name - all it is called is Spring Branch (Name of stream) tributary of Don't know

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 437.5 gallons per minute.

3. The use to which the water is to be applied is sprinklers for 2 1/2 acres

4. The well or other source is located 221 ft. N (N. or S.) and 127 ft. W (E. or W.) from the S.E. corner of NW 1/4 NW 1/4 of Section 23, Twp. 6 N, R. 35 E, W.M. (Section or subdivision) (If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary) being within the boundary (SE NW NW) of Sec. 23, Twp. 6 N, R. 35 E W.M., in the county of Linn

5. The 500 ft (Canal or pipe line) to be 600 ft miles in length, terminating in the (Smallest legal subdivision) of Sec. 23, Twp. 6 N, R. 35 E W.M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of well (Give number of wells, tunnels, etc.) having a diameter of 6 inches and an estimated depth of 60 feet. It is estimated that feet of the well will require casing. Depth to water table is estimated 50 (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use *Section 23, Range 35E, Township 6N*

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6 N	35 E	23	SE NWNW	3 1/2
		 		

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 450
- 15. Construction work will begin on or before 1st JUNE
- 16. Construction work will be completed on or before 10th JUNE
- 17. The water will be completely applied to the proposed use on or before 20th JUNE

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Remarks: Ross Hinton
(Signature of applicant)
Have done the best we can with this - asked water master to help us but he said he did it have time - Well is already cased in - has small pump that is used for house - larger pump being put in and will run off same meter as house (electricity) - called P.P. Leggett power the man said it should be po.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.04 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 11, 1965

Actual construction work shall begin on or before August 23, 1966 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1966

Complete application of the water to the proposed use shall be made on or before October 1, 1967

WITNESS my hand this 23rd day of August, 1965
