STATE ENGINEER  
SALEM, OREGON

CERTIFICATE NO. 42563

Permit No. G-2924

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Robert D. Krueger (Name of applicant)

of Rt. 4 - Box 45 - The Dalles, Oregon, county of Wasco, state of Oregon

do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

N. A.

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Brown's Creek (Name of stream)

tributary of Chenowith Creek

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 50 gallons per minute.

3. The use to which the water is to be applied is Orchard Irrigation

4. The well or other source is located 840 ft. S and 105 ft. E from the NW corner of Section 6 Township 1 N Range 13 E. W. M. (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the N.W. 1/4 NW 1/4 of Sec. 6, Twp. 1 N, R. 13 E, W. M., in the county of Wasco

5. The N. A. (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. , Twp. , R. , W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is None

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

N. A.

8. The development will consist of 2 Wells having a diameter of 10 inches and an estimated depth of 315 feet. It is estimated that 19 1/2 feet of the well will require Steel casing. Depth to water table is estimated 96 feet (Kind) (Feet)

SOST

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type .....

Give horsepower and type of motor or engine to be used .....

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use .....

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
1 N	13 E	6	Nw 1/4 Nw 1/4	18.47
2 N	13 E	31	Sw 1/4 & SW 1/4	10

(If more space required, attach separate sheet)

Character of soil ..... Sandy Loam

Kind of crops raised ..... Cherries

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 3,500.00
- 15. Construction work will begin on or before Well has been drilled & capped 8/1/66
- 16. Construction work will be completed on or before see below 4/1/66
- 17. The water will be completely applied to the proposed use on or before see below
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Application # G-67, Permit # G-7 (Cancelled)

*Robert D. Krueger*  
(Signature of applicant)

Remarks: Permit is required as part of application for financing with Farmers Home Administration. Well was drilled in 1954 but was capped and not used. F.H.A insists on a permit before accepting application. If loan is made, funds will be available to install pump and pipe needed. This cost is estimated at \$1,700 and is included in item 14 above.

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion.....

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 29th....., 1965....

30th

WITNESS my hand this 27th day of September....., 1965..

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.11 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 8, 1965 for 0.055 c.f.s., from North well, October 7, 1965, for 0.055 c.f.s., from South well.

Actual construction work shall begin on or before October 18, 1966 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1967

Complete application of the water to the proposed use shall be made on or before October 1, 1968

WITNESS my hand this 18th day of October, 1965
