

RECEIVED
STATE ENGINEER
SALEM, OREGON

Permit No. G- 297

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

1. *Riley J. Swell*
(Name of applicant)

of *Bevas*, county of *Harney*
(Postoffice Address)

state of *Oregon*, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated *Prison Creek Slough*
(Name of stream)

tributary of *Silver*

2. The amount of water which the applicant intends to apply to beneficial use is *1000* cubic feet per second or *1000* gallons per minute.

3. The use to which the water is to be applied is *Irrigation*

4. The well or other source is located *300* ft. *E* and *10* ft. *N* from the *SW* corner of *14* of Sec. *11*, Twp. *25*, R. *12*
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one well, it must be described. Use separate sheet if necessary.

to be located on the *SW* of Sec. *11*, Twp. *25*, R. *12*

W. M. in the county of *Harney*

The *well* to be *10* inches in diameter

to be terminating in the *well* of Sec. *11*, Twp. *25*, R. *12*

W. M. the proposed location being shown throughout on the accompanying map

5. The name of the well or other works is *# 3*

DESCRIPTION OF WORKS

1. If the water to be utilized is artesian, the works to be used for the control and conservation of the water must be described

2. The diameter of the well shall consist of *10* inches and an estimated depth of *100* feet. It is estimated that *1000* cubic feet per second can be obtained.

3. The estimated depth to water table is *100* feet.

CANAL SYSTEM OR PIPE LINE--

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate, width on top (at water line) 12 feet; width on bottom feet; depth of water 1.0 feet; grade feet; fall per one thousand feet.

(b) At 0.5 miles from headgate: width on top (at water line) --- feet; width on bottom --- feet; depth of water --- feet; grade --- feet fall per one thousand feet.

(c) Length of pipe, --- ft.; size at intake, --- in.; in size at --- ft from intake --- in.; size at place of use --- in.; difference in elevation between intake and place of use, --- ft. Is grade uniform? --- Estimated capacity, --- sec. ft.

10. If pumps are to be used, give size and type *Turbine*

Give horsepower and type of motor or engine to be used *15 HP Electric*

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township No. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
10	11	11	SWSE	160

(If more space required, attach separate sheet)

Character of soil *Sandy loam*
 Kind of crops raised *Pk, + Grain*

MUNICIPAL SUPPLY—

13. To supply the city of _____ in _____ county, having a present population of _____ and an estimated population of _____ in 19____.

14. Estimated cost of proposed works, \$ 5000.00

15. Construction work will begin on or before 1957

16. Construction work will be completed on or before May 1, 1958

17. The water will be completely applied to the proposed use on or before May 1, 1958

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Remarks:

STATE OF OREGON,)
County of Marion,) ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data and return the same for _____ completion.

In order to retain its priority, this application must be returned to the State Engineer with corrections on or before September 10, 1956.

WITNESS my hand this _____ day of July, 1956.

By *Chris L. Wheeler*
LEWIS W. STANLEY, STATE ENGINEER
Chris L. Wheeler, Assistant

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from well

No. 3

The use to which this water is to be applied is irrigation and supplemental irrigation.

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The expiry date of this permit is April 20, 1956

Actual construction work shall begin on or before August 24, 1957 and shall

be prosecuted with reasonable diligence and be completed on or before October 1, 1957

The diversion of water to the proposed use shall be made on or before October 1, 1957

This permit is given this 25 day of August

Lewis A. Stanley 1956 STATE ENGINEER
