APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, School District No. 62, Clackamas County, Oregon
(Name of applicant)

of 1117-12th Street, Oregon City, Oregon, county of Clackamas,
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

a public corporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Newell Creek, a tributary of Abernathy Creek,
(Name of stream)

a tributary of Willamette River
(approximately 1 1/4 miles from Willamette River)

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 250 gallons per minute.

3. The use to which the water is to be applied is ~~domestic~~ (school plant) 90 gpm irig. 160 gpm heat pump
Irrigation and operation of the school heating and air conditioning plant. 20 million gal. per year used for heat pump, part of which is re-used for irrigation.

4. The well or other source is located 400 ft. north of ~~the~~ from the west
(N. or S.) (E. or W.)

~~corner of~~ end of Donovan Lane (which is a dedicated County road) FD stone on div. line of Ezra Fisher DLC #44 in Sec. 33, T2S, R2E WM; continue west on Donovan Ln. 727.16' then due N. 364.51' to well location. (Stone 23.15 chs N 9 S 87° 15' E 51.25 chs at SW cor. DLC 44)
(If preferable, give distance and bearing to section corner)

being within the Ezra Fisher D.L.C. NW 1/4 of NW 1/4 Sec. 33, Twp. 2S, R. 2E, W. M., in the county of Clackamas

5. The 125 ft. pipe line tube miles in length, terminating in the at school plant of Sec. D.L.C., Twp. 2S, R. 2E, W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line) (Smallest legal subdivision)

6. The name of the well or other works is Ogden Junior High

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 16 inches and an estimated depth of 600 feet. It is estimated that 470 feet of the well will require steel casing. Depth to water table is estimated 570 feet.
(Kind) (Feet)

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Peerless deep well turbine 13 stage 8 DA 5" column

Give horsepower and type of motor or engine to be used 40 H.P. Westinghouse #326 UP

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development see map attached

12. Location of area to be irrigated, or place of use limited irrigation on part of school grounds

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
2S	2E	Ezra Fisher D.L.C.	33	limited
(legal description attached)				Not to exceed 16 acres
2S	2E	33	NW $\frac{1}{4}$ of NW $\frac{1}{4}$	12 acres
			SW $\frac{1}{4}$ of NW $\frac{1}{4}$	4 acres

(If more space required, attach separate sheet)

Character of soil loam
 Kind of crops raised none school grounds

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$.....17,000.....
- 15. Construction work will begin on or before April 1, 1965.....
- 16. Construction work will be completed on or before June 15, 1965.....
- 17. The water will be completely applied to the proposed use on or before April 1966.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.supplemental to Clairmont Water District water supply which has a
4" main to school property for fire protection.

School District No. 62, Clackamas County, Oregon By Edwin Ditto Sup't.-Clerk.
(Signature of applicant)

Remarks: School District No. 62 is planning to build a junior high school for a capacity of 750 students to be located on this 33-acre tract.

Due to the terrain of the property adjoining Newell Creek, only 20 acres of this tract will be used for school purposes.

This application is made with the desire to use this water (dependant on mineral content and purity) for domestic purposes, heat pump and limited irrigation on parts of the play area.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ~~August 17~~, 19 65
October 25

STATE ENGINEER
By Walter J. Lang
ASSISTANT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.56 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation and air conditioning and heating, being 0.2 c.f.s. for irrigation and 0.36 c.f.s. for air conditioning and heating.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 8, 1965

Actual construction work shall begin on or before April 25, 1967 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1967

Complete application of the water to the proposed use shall be made on or before October 1, 1968

WITNESS my hand this 25th day of April, 1966
