Permit No. G- G. 3204

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Marvin Ketterath (Name of applicant)

of Merrill P.O. Box 2111 (Postoffice Address), county of Klamath

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated G3 Canal (Klamath Irrigation Project) flows into D canal tributary of D canal

2. The amount of water which the applicant intends to apply to beneficial use is 400 cubic feet per second or 400 gallons per minute.

3. The use to which the water is to be applied is sprinkler irrigation and stock water.

4. The well or other source is located 2100 ft. N and 630 ft. E from the corner of 1005 feet North of said So. sec. line - 525 ft. east of said W. sec. line

(If there is more than one well, each must be described. Use separate sheet if necessary) being within the NW 1/4 SW 1/4 of Sec. 32, Twp. 40 S, R. 11 E, W. M., in the county of Klamath

5. The Canal or pipe line to be _____ miles in length, terminating in the _____ of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 8 inches and an estimated depth of 210 feet. It is estimated that 20 feet of the well will require steel casing. Depth to water table is estimated 84

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1000.00 for well 2800.00 pump
- 15. Construction work will begin on or before July 1961
- 16. Construction work will be completed on or before September 1961
- 17. The water will be completely applied to the proposed use on or before May 1962

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. 7.9 acres of ground are included under Klamath Extension, but cost of supplying water under present setup are prohibitive.

Mason R. Smith
(Signature of applicant)

Remarks: Well was drilled by Wilson Drilling Co. of Merrill.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before May 18, 1966...

CHRIS L. WHEELER
STATE ENGINEER
By Larry W. Jebousek
Larry W. Jebousek, ASSISTANT

STATE OF OREGON,

County of Marion,

} ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.19 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 14, 1966

Actual construction work shall begin on or before January 18, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968

Complete application of the water to the proposed use shall be made on or before October 1, 1969

WITNESS my hand this 18th day of January, 1967
