

Permit No. G- **G 3297**

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Chris C. and Elizabeth Jean Lindseth
(Name of applicant)

of Route 3, Box 620, Junction City, county of Benton,
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

No

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated, Long Tom
(Name of stream)

tributary of Willamette

2. The amount of water which the applicant intends to apply to beneficial use is 1.0 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located ft. and ft. from the corner of N 30° E 1327' 4" from the SW corner of Section 36
(N. or S.) (E. or W.)
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW 1/4 SW 1/4 of Sec. 36, Twp. 13S, R. 5W,

W. M., in the county of Benton

5. The pipeline (portable) to be 5200' including lateral
(Canal or pipe line) miles

in length, terminating in the anywhere in the irrigated area of Sec. 36, Twp. 13S,
(Smallest legal subdivision)

R. 5W, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a
(Give number of wells, tunnels, etc.)

diameter of 12 inches and an estimated depth of 35 feet. It is estimated that 32 feet of the well will require welded steel casing. Depth to water table is estimated 12'
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

G 3297

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ^{2200'} 5 & 6" mainline, 3000 ft. - 3" lateral ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ³ ft. Is grade uniform? Yes Estimated capacity, 1.33 sec. ft.

10. If pumps are to be used, give size and type 600 gpm centrifugal pump - 12' elevation lift - total head 110 ft.

Give horsepower and type of motor or engine to be used 25 hp - 3 phase electric motor.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
13S	5W	36	SW $\frac{1}{4}$ SW $\frac{1}{4}$	40
13S	5W	36	NW $\frac{1}{4}$ SW $\frac{1}{4}$	40

(If more space required, attach separate sheet)

Character of soil Newberg fine sandy loam and Newberg loam
 Kind of crops raised Diversified

MUNICIPAL SUPPLY—

G 3297

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$4700.....
- 15. Construction work will begin on or before complete.....
- 16. Construction work will be completed on or before
- 17. The water will be completely applied to the proposed use on or before immediately.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Chris C. Lindseth
(Signature of applicant)

Remarks: This land is farmed by Crocker Brothers, Route 3, Box 617,

Junction City, Oregon

The system is portable and will be used elsewhere.

This well replaces the two wells as recorded by Registration

#GR-3399, Certificate #GR-3146 and Registration GR-3398, Certificate #GR-3145.

*We wish the earlier registration date to be considered in any ~~judicial~~ adjudication of the water rights on this land.

County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.0 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is May 23, 1966

Actual construction work shall begin on or before May 17, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968

Complete application of the water to the proposed use shall be made on or before October 1, 1969

WITNESS my hand this 17th day of May, 1967
