APPLICATION FOR A PERMIT

ASSIGNED, See Misc. Res., Vol. **4** Page **1039**

To Appropriate the Ground Waters of the State of Oregon

I, Gil Wel Corporation (a Washington, Corp.)
(Name of applicant)
of 4421 Nugget Way, Eugene, county of Lane
(Postoffice Address)
state of Oregon 97403, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

Vancouver, Wn

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River--between Eugene and Springfield, Oregon
(Name of stream)
tributary of _____

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 18 gallons per minute.

3. The use to which the water is to be applied is circulation for cooling in plastic pipe plant, extruding. Water is used for cooling and returned to sump then returns to water table. Water is not toxic upon return to ground

4. The well or other source is located 310' northwest from the northeast corner of
The well would be located 310' southwest of the NW 1/4 corner, and 310'
of the NE corner of Sec. 3, T18s, R3W, WM. IN the NE 1/4 NE 1/4 of Section #3
T18S, R3W, Wm. Compass bearing is 222 1/2 degrees from N.E. corner

222°50'
(S 42°30' W)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the 8-16-66 Northeast corner of _____ of Sec. 3, Twp. 18 so., R. 3,
W. M., in the county of Lane.

5. The approx. 20 ft long _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the factory at 4421 Nugget way Sec. _____, Twp. _____,
(Smallest legal subdivision)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____

NEW ADDRESS
GIL WEL CORPORATION
4421 NUGGET WAY
EUGENE, OREGON 97403
PHONE 726-7639

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well _____ having a
(Give number of wells, tunnels, etc.)
diameter of 6 inches and an estimated depth of 40 feet. It is estimated that _____
feet of the well will require steel casing. Depth to water table is estimated 40
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 1" submersible

Give horsepower and type of motor or engine to be used one H.P. Fairbanks Morse

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Not less than 1/4 mile

12. Location of area to be irrigated, or place of use no irrigation

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
T18S	R3W	#3	NE $\frac{1}{4}$ - NE $\frac{1}{4}$	none-usage for industrial plant.

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$.....\$289.00.....
- 15. Construction work will begin on or before~~#####~~ At once..
- 16. Construction work will be completed on or before As soon as possible
- 17. The water will be completely applied to the proposed use on or before July 1966

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. We have city water for drinking, sanitation, building maint., no connection or possible mixing of supplies will be effected..

(Signature of applicant)

Remarks: The attached prints are all that we are able to come up with. We hope they are adequate.. We have made several types of copies at the blueprint company, and I am unable to find anyone with any more legel description of the property than that enclosed. The map is larger than 4" to the mile, and I am told that the lower R.H. corner of the map represents a Gvt. corner as marked.

We hope this information is correct, as we have had ~~###~~ no previous experience of this type and desire to supply the correct infomation as soon as possible.

Thank you for your help

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for ~~ecompletion~~ Completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before ~~September 15~~ 1966
October 10th 66

WITNESS my hand this ~~15th~~ 8th day of ~~July~~ August, 19 ~~66~~ 66

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed0.04..... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well.....

The use to which this water is to be applied is ..cooling for plastic pipe extruding.....

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 12, 1966.....

Actual construction work shall begin on or before June 29, 1968..... and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19.....68..

Complete application of the water to the proposed use shall be made on or before October 1, 19.69.,

WITNESS my hand this29th... day of June....., 19.67.....
