To appropriate the Ground Waters of the State of Oregon

I, Robert F. Austin (Name of applicant)

of 5245 Ridge Drive, Salem, Oregon, county of Marion

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River is 3 Miles West

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is 150 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 1144.48 S. and 802 ft. E. from the N.E. corner of Wm. Pugh D.L.C. # 41 Sec. 36; Twp. 6S; R. 3 W.

(If correct, give distance and bearing to section corner)

(If correct, give section, township and range)

S.E. 4 of the S.W. 4 of Sec. 36 Twp. 6 South R. 3 West

Marion

Portable Equipment

to be

located on the

of Sec

Twp

DESCRIPTION OF ENGINE

The engine to be used in the well is to be used for the purpose of pumping water to the surface and is to be described as follows:

1 Well

with an estimated depth of 100 feet

Std. Steel Pipe

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; in size at _____ ft. from intake _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type **10 HP Deep Well Turbine**

Give horsepower and type of motor or engine to be used **10 HP. Electric, 3 phase**

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development:

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Williamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6 South	3 West	36	S.W. 1/4 of S.W. $\frac{1}{4}$	5.5
6 South	3 West	36	S.E. $\frac{1}{2}$ of S.W. $\frac{1}{2}$	14.5

(If more space required, attach separate sheets)

Character of soil **Willamette Silt**
 Principal crops raised **Berries**

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

14. Estimated cost of proposed works, \$..... 800.00 for well,

15. Construction work will begin on or before Sept. 10, 1956.....

16. Construction work will be completed on or before Sept. 20, 1956.....

17. The water will be completely applied to the proposed use on or before Oct. 1, 1956.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Robert F. Austin
(Signature of applicant)

Remarks:

STATE ENGINEER
.....

..... that I have examined the foregoing application, together with the accompanying
..... and return the same for

..... to retain its priority, this application must be returned to the State Engineer, with correc-

....., 19.....

..... day of 19.....

County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.25 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water

The works constructed shall include an air line and pressure gauge or an access port for measuring an adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

Commencement of this permit is September 6, 1956

Actual construction work shall begin on or before September 7, 1957 and shall

be completed with reasonable diligence and be completed on or before October 1, 1957

Delivery of the water to the proposed use shall be made on or before October 1, 1957

Witness my hand and seal this 25th day of September 1956
