

Permit No. G- 338

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Harvey Machine Co., Inc. (Name of applicant)

of 19200 South Western Avenue, Torrance, county of Los Angeles (Postoffice Address)

state of California, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

April 1942 - California

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Chenowith Creek & Columbia River in Wasco County, Oregon (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 1500 gallons per minute.

3. The use to which the water is to be applied is Industrial Water Requirements; eg. Rectifier Cooling, Scrubber Spray, Casting Machine Cooling, Fire Protection.

4. The well or other source is located 1358.49 ft. South, and 15° 53' 50" ft. East from the Quarter corner of Sections 28 and 29, Township 2 North, Range 13 E. W. M., Wasco County, Oregon. (Section or subdivision) (If preferable give distance and bearing to section corner)

If there is more than one well, each it will be described. Use separate sheet if necessary. NW 4 of Sec. 28, Twp. 2, R. 13 E., W. M., the county of Wasco

to be of Sec. Twp. terminating in the of Sec. Twp.

W. M., the proposed location being shown throughout on the accompanying map.

The purpose of the well or other works is

DESCRIPTION OF WORKS

If the water to be used is artesian, the works to be used for the control and conservation of the water should be described.

The proposed well consists of one well (Give number of wells if more than one)

of water and an estimated depth of 280 feet. It is estimated that

steel casing. Depth to water to be conserved

Min. 9- by resolution

CANAL SYSTEM OR PIPE LINE--

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(b) At _____ miles from headgate: width on top (at water line) _____ feet; width on bottom _____ feet; depth of water _____ feet; grade _____ feet fall per one thousand feet.

(c) Length of pipe, _____ ft.; size at intake, _____ in.; and _____ in.; in size at _____ ft. industrial use _____ in.; size at place of use _____ in.; difference in elevation between intake and place of use, _____ none _____ ft. Is grade uniform? _____ Estimated capacity, _____ sec. ft.

10. If pumps are to be used, give size and type Vertical, Motor Driven and/or Engine Drive

(Give horsepower and type of motor or engine to be used Estimated 150 - 200 h. p. required; 440 volt 3-phase electric motor and/or diesel engine with right angle drive.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Range E. or W. of Williams Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
13 E	30	W2, SW1	Industrial

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

- 14. Estimated cost of proposed works, \$20,000.00.....
- 15. Construction work will begin on or before September 15, 1956.....
- 16. Construction work will be completed on or before December 1, 1956.....
- 17. The water will be completely applied to the proposed use on or before December 1, 1956.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. None.....

STATE OF OREGON,

PERMIT

County of Marion,

} ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 3.24 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is industrial

If for irrigation, this appropriation shall be limited to - - of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 7, 1956

Actual construction work shall begin on or before September 12, 1957 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1957

Complete application of the water to the proposed use shall be made on or before October 1, 1957

WITNESS my hand this 10th day of September, 1956

Lewis A. Stanley
STATE ENGINEER
