CERTIFICATE NO. 40823

Permit No. G- G 3402

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

Bradley Briscoe Summers

1. Bradley Briscoe Summers
RT. 2, Box 148 Sherwood, Washington
of RT 2 Box 148 Sherwood, county of Washington
Oregon

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Rock Creek
(Name of stream)
tributary of Tualatin River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 30 gallons per minute.

3. The use to which the water is to be applied is Household & Irrigation of crops
Household & Irr. Crops

4. The well or other source is located 425 North 960 West SE
200 ft. North and 300 ft. West from the NE
(N. or S.) (E. or W.)
corner of Block 26 Tongue Section 34 T 2S R1 W1W
(Section or subdivision)
(cor.) S.E. quarter of S.E. quarter of section 34
(If preferable, give distance and bearing to section corner)
township 2 So. range I west Willamette Meridian
(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the Southeast quarter of Sec. 34, Twp. 2 South, R. I West W. M., in the county of Washington

5. The to be miles
(Canal or pipe line)
in length, terminating in the of Sec., Twp.
(Smallest legal subdivision)
R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.
.....
.....
.....

8. The development will consist of One Well having a
(Give number of wells, tunnels, etc.)
diameter of 6 inches and an estimated depth of 300 feet. It is estimated that
feet of the well will require 75 steel casing. Depth to water table is estimated 100 ft.
(Kind) (Feet)
to flow that will supply 50 gallons a minute

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 4inch submersible turbine

Give horsepower and type of motor or engine to be used 5 h.p. Electric motor

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
2 South	I West	34	SE quarter of SE quarter	Ten

(If more space required, attach separate sheet)

Character of soil Clay loam

Kind of crops raised Hay, pasture, garden

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2700.00
- 15. Construction work will begin on or before August 5, 66 Skyles drilling & supply
- 16. Construction work will be completed on or before June 1, 67 (on or before)
- 17. The water will be completely applied to the proposed use on or before June 1, 67
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. none

Bradley B. Deumer
(Signature of applicant)

Remarks: Explanation of 16 above;

Our well which has furnished water for house hold and garden since about 1951 went completely dry about July 20th. With ten people in our household and our live stock our need was acute.

Our driller advised us that to deepen the existing well as impossible because close proximity of buildings made it impossible to get rig located.

So we decided if we had to have a new well, it should be an irrigation well, the application for which is hereby submitted

L.D. is E 1/2 Block 23 Tonguin - Washington Co.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before October 26, 1966

WITNESS my hand this 26th day of August, 1966

CHRIS L. WHEELER
STATE ENGINEER

By *Tony L. Johnson*
ASSISTANT

STATE OF OREGON, }
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed0.11..... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from ...a well.....

The use to which this water is to be applied is ...irrigation.....

If for irrigation, this appropriation shall be limited to1/80th..... of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed ..2 1/2..... acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 16, 1966

Actual construction work shall begin on or before June 29, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19 68

Complete application of the water to the proposed use shall be made on or before October 1, 19 69

WITNESS my hand this 29th day of June, 19 67

Chris L. Wheeler
STATE ENGINEER
