To Appropriate the Ground Waters of the State of Oregon

I, Milo Ray Kliever
(Name of applicant)
of Route 2 Box 458, Salem, county of Marion,
(Postoffice Address)
state of Oregon

do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Little Pudding River
(Name of stream)

flows into Pudding River, Butte Creek tributary of

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 72 gallons per minute.

3. The use to which the water is to be applied is irrigation and domestic house
~~use~~

4. The well or other source is located 441 ft. North and 1000 ft. East from the S.W. corner of 22
(N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the S.W. 1/4 of S.W. 1/4 of Sec. 22, Twp. 6 S, R. 2 W, W. M., in the county of Marion

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____,
(Smallest legal subdivision)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Conestoga Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a
(Give number of wells, tunnels, etc.)
diameter of 8 inches and an estimated depth of 125 feet. It is estimated that 125
feet of the well will require steel casing. Depth to water table is estimated 120
(Kind) (Feet)

G 3408

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 2,500
- 15. Construction work will begin on or before July 25, 1966
- 16. Construction work will be completed on or before August 5, 1966
- 17. The water will be completely applied to the proposed use on or before June 30, 1967

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

Smilo Ray Kliever
(signature of applicant)

Remarks:

This well is to be used as the domestic house supply in addition to irrigation purposes due to the lack of sufficient water in the months of July and August in the existing house well. Twice the well has gone dry for several days at this time of year. The crops to be irrigated have suffered greatly this year due to lack of water. An estimated loss of 3 to 5 ton per acre resulted, placing a great financial burden on us. Our blackberries should always have three waterings which also has been impossible under existing circumstances. Without irrigation we shall be forced to cease row crop farming.

Willamette Drilling July-Aug 1966

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.16 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 18, 1966

Actual construction work shall begin on or before June 29, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968

Complete application of the water to the proposed use shall be made on or before October 1, 1969.

WITNESS my hand this 29th day of June, 1967.
