PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.97 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Meyerhaeuser Timber Company Wells Nos. 2, 3, and 4

The use to which this water is to be applied is manufacturing and domestic, being 0.57 c.f.s. for manufacturing and 0.40 c.f.s. for domestic

If for irrigation, this appropriation shall be limited to - - - of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water

The works constructed shall include an air line and pressure gauge or an access port for measuring line adequate to determine water level elevation in the well at all times

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 1, 1956

Actual construction work shall begin on or before October 24, 1957 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1958

Application of the water to the proposed use shall be made on or before October 1, 1958

WITNESS my hand this 24th day of October, 1956
