

Permit No. G- G 3456

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, E. B. Brown, III (Name of applicant)

of 1370 Maple Drive, Junction City, county of Lane (Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated State Owned Gravel Pits (Name of stream)

tributary of Willamette R.

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 800 gallons per minute. 400 gpm each sump

3. The use to which the water is to be applied is Row Crop (Pole Beans) irrigation

4. The well or other source is located ft. and ft. from the corner of (N. or S.) (E. or W.) (Section or subdivision)

Pump #1 30 ft. N and 930 ft. E of W 1/2 cor. Sec. 15 T17S-R4W (If preferable, give distance and bearing to section corner)

Pump #2 200 ft. N and 1170 ft. E of W 1/2 cor. Sec. 15 T17S-R4W (If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW 1/4 NW of Sec. 15, Twp. 17S, R. 4W, W. M., in the county of Lane

5. The (Canal or pipe line) to be miles

in length, terminating in the (Smallest legal subdivision) of Sec. , Twp. , R. , W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Gravel Pits

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 2 Gravel Pit wells having a diameter of inches and an estimated depth of feet. It is estimated that feet of the well will require casing. Depth to water table is estimated (Kind) (Feet)

C 3720

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Two Cornell Pumps - 3" intake
4" discharge

Give horsepower and type of motor or engine to be used Two 20 H.P. G.E. electric
motors

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

| Township N. or S. | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |
|----------------------|---|---------|------------------|---------------------------------|
| 17 <u>S</u> | 4 <u>W</u> | 15 | NWSW | 28.7 |

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before, 19.....

WITNESS my hand this day of, 19.....

STATE ENGINEER

By ASSISTANT

STATE OF OREGON, }
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.79 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two gravel pits being 0.395 cfs from each pit.

The use to which this water is to be applied is irrigation.

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is July 19, 1967.

Actual construction work shall begin on or before July 19, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1968.

Complete application of the water to the proposed use shall be made on or before October 1, 1969.

WITNESS my hand this 19th day of July, 1967.

James W. Carver, Jr.
Deputy STATE ENGINEER
