APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, M. T. M. FARMS, a partnership,
(Name of applicant)

of Route 1, Box 35, Ontario, county of Malheur
(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Snake River
(Name of stream)

tributary of Columbia River

* 2. The amount of water which the applicant intends to apply to beneficial use is 35 cubic feet per second or 200 gallons per minute for #1 and 450 gpm for #2
0.25 cfs from Well No. 1 & 0.50 cfs from Well No. 2. 1tr. 12-1-66

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located _____ ft. _____ and _____ ft. _____ from the corner of _____
(N. or S.) (E. or W.)
(Section or subdivision)

#1 N 25° 04' E - 4391 feet from SW corner Sec. 8

(If preferable, give distance and bearing to section corner)

#2 N 30° 23' E - 2971 feet from SW corner Sec. 8

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the #1 NE 1/4 #2 NE 1/4 SW 1/4 of Sec. 8, Twp. 19 S., R. 47, E.

W. M., in the county of Malheur

5. The As shown to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____,
(Smallest legal subdivision)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is No. 1 - S19; No. 2 - S19

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of two wells having a
(Give number of wells, tunnels, etc.)
diameter of 12 inches and an estimated depth of #1 - 52 feet. It is estimated that #1 - 50
#2 - 70 feet. It is estimated that #2 - 72
feet of the well will require steel casing. Depth to water table is estimated _____
(Kind) (Feet)
static level 7 feet - both wells

CANAL SYSTEM OR PIPE LINE— As shown.

G 3506

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type Both Peerless Turbine 8" discharge

Give horsepower and type of motor or engine to be used G.E. Electric 15 H.P.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
19 S	47 E.	8	NENW	20
"	"	8	SENW	20
"	"	8	NESW	20
TOTAL				60
<p>both wells furnish water to central distribution box and ditch and after combining the total water applied to acreage. See Remarks</p> <p>All water from both wells to be split and total applied to all lands</p>				

(If more space required, attach separate sheet)

Character of soil loam

Kind of crops raised ROW CROPS

MUNICIPAL SUPPLY—

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$.....3,000.00.....
- 15. Construction work will begin on or before
- 16. Construction work will be completed on or beforecompleted June 1966.....
- 17. The water will be completely applied to the proposed use on or beforeJune 1967.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Certificate 9753 Owyhee Ditch Co. - Owyhee River Adj (s) 23806 - Owyhee Ditch Co. (s) 24285 - Owyhee Ditch Co.

M. T. M. FARMS, a partnership,
By [Signature]
(Signature of applicant)

Remarks: Well No. 1 tested at 300 G.P.M. and Well No. 2 at 700 G.P.M. Both wells are piped to a central distribution box so that the supplemental water can be used on any of the lands under this permit.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for Completion
Correction

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before December 21st, 19 66
December 28th 66

CHRIS L. WHEELER

STATE ENGINEER

ASSISTANT

County of Marion,

ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.75 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from two wells being 0.25 cfs from well No. 1 and 0.50 cfs from well No. 2

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 19, 1966

Actual construction work shall begin on or before October 10, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 10th day of October, 1967
