Permit No. G- G 3564

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Walter E. Dykeman, Manager Lakeview Water Commission of the Town of Lakeview,
(Name of applicant) a municipal corporation,
of City Hall, Lakeview, county of Lake,
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

Town of Lakeview, Oregon, a Municipal Corporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Bullard
(Name of stream)

tributary of Thomas Creek

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic
feet per second or 600 gallons per minute.

3. The use to which the water is to be applied is municipal water supply

4. The well or other source is located 73.5 ft. S and 28.0 ft. E from the SW
corner of NW 1/4 (also South 18 degrees 05 minutes East 77.3 feet from the
Northwest corner of the Southwest quarter of Section 15
(N. or S.) (E. or W.)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW 1/4 SW 1/4 of Sec. 15, Twp. 39 S., R. 20 E.,
W. M., in the county of Lake

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____,
(Smallest legal subdivision)

R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____ No. 1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of 1 well having a
(Give number of wells, tunnels, etc.)
diameter of 18 inches and an estimated depth of 389 feet. It is estimated that 389
feet of the well will require standard casing. Depth to water table is estimated 38
(Kind) (Feet)
(static)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
39S	20E	9	All	Municipal
		10	All	Municipal
		15	All	Municipal
		16	All	Municipal
		21	N $\frac{1}{2}$	Municipal
		22	N $\frac{1}{2}$	Municipal

Handwritten notes:
 5/4/67
 J. C. ...
 ...

(If more space required, attach separate sheet)

See supplemental area description attached.

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY—

13. To supply the/city of/...Town of Lakeview.....
inLake..... county, having a present population of3,200.....
and an estimated population of4,000..... in 1980..

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$..8,400.00.....
- 15. Construction work will begin on or before completed.....
- 16. Construction work will be completed on or before completed.....
- 17. The water will be completely applied to the proposed use on or before immediately.....
- 18. If the ground water supply is supplemental to an existing water supply, identify any appli-
cation for permit, permit, certificate or adjudicated right to appropriate water, made or held by the
applicant.

TOWN OF LAKEVIEW, A MUNICIPAL CORPORATION.

BY: *Walter E. Sherman*
(Signature of applicant)
MANAGER, WATER DEPARTMENT

Remarks:

This well replaces an old well (Application U-65, Permit U-74, Certificate 10941) which was abandoned. The new well was drilled to eliminate sand problem in old well. The new well connects directly with preexisting water pump line of town as indicated in previous application.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.34 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is January 17, 1967

Actual construction work shall begin on or before October 19, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 19th day of October, 1967
