JAN 10 1937

Permit No. G- **G 3595**

CERTIFICATE NO. **43624**

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, G. Lowell Fuller and Nettie Lee Fuller

(Name of applicant)

of R. F. D. # 1, Baker, Oregon

(Postoffice Address)

county of Baker

state of Oregon

, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Marble Creek

(Name of stream)

tributary of Powder River

2. The amount of water which the applicant intends to apply to beneficial use is One (1) cubic feet per second or 450 gallons per minute.

3. The use to which the water is to be applied is Supplemental Irrigation ~~for domestic use~~ HRS.

4. The well or other source is located South 22° 40' East 760.7 feet ft. and ft. from the N 1/4 corner of Section 4 Tn. 9 S R 39 E W.M.

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW 1/4 of the NE 1/4 of Sec. 4, Twp. 9 S, R. 39 E, W. M., in the county of Baker, Oregon

5. The Existing ditches and proposed Sprinkler Pipe ~~to be~~ Lines, as needed to distribute (Canal or pipe line) in length, terminating in the NE 1/4 NE 1/4 & SW 1/4 NE 1/4 of Sec. 4, Twp. (9) S, R. 39 E, W. M., the proposed location being shown throughout on the accompanying map. (Smallest legal subdivision)

6. The name of the well or other works is Fuller Pond ORS 537.515 Par. 6

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

The Supplemental water to be pumped into existing ditch-system and pending Sprinkler Pipe-line System to cover the areas indicated.

8. The development will consist of 1 Sump type well having a diameter of 72' x 125' and an estimated depth of 20 feet. It is estimated that feet of the well will require none casing. Depth to water table is estimated 5

(Kind)

(Feet)

Handwritten signature/initials

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 1320 ft.; size at intake, 4" in.; in size at 1320 ft. from intake 4" in.; size at place of use 4" in.; difference in elevation between intake and place of use, 10 ft. Is grade uniform? : YES Estimated capacity, one sec. ft.

10. If pumps are to be used, give size and type ~~.....~~
 Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Pond-Well is adjacent to Marble Creek. Stream bed is approx. 2 ft. below ground surface. Pond-Well is hereon designated as "Pond # 1" and so indicated on accompanying Plat-Map. 10ft N. of creek

12. Location of area to be irrigated, or place of use Applicants Farm-home

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
9 South	39 East	4	N/ E $\frac{1}{4}$ of N/E $\frac{1}{4}$	39.5
"	"	4	N/W $\frac{1}{4}$ of N/E $\frac{1}{4}$	40.0
"	"	4	SW $\frac{1}{4}$ of N/E $\frac{1}{4}$	2.2
				<u>81.7</u>

(If more space required, attach separate sheet)

Character of soil Wingville Loam
 Kind of crops raised Pasture, Hay & Grain

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$2,500.....
- 15. Construction work will begin on or before February 1, 1967.....
- 16. Construction work will be completed on or before July 1, 1967.....
- 17. The water will be completely applied to the proposed use on or before July 1, 1967.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Stock Certificate #31, 8.4 Shares of Pocahontes Mining and Irrigation Company, Baker, Oregon. Cert. 4415 # 10013

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.00 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a sump well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein, and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 15, 1967

Actual construction work shall begin on or before November 21, 1968 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 21st day of November, 1967
