

Permit No. G- **G 3716**

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Charles E. Karnesh, Charles E. Karnesh
135 N. Glover Ridge Road, Albany (Name of applicant) Linn
of 135 N. Glover Ridge Rd, Albany, county of Linn
Oregon (Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Burkhart Creek Burkhart Creek
(Name of stream)
tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is 0.0125 cubic
feet per second or 5.61 gallons per minute.

3. The use to which the water is to be applied is irrigation irrigation

4. The well or other source is located ft. (N. or S.) and ft. (E. or W.) from the
corner of Exactly 93 feet South of the Burkhart Creek water rights S 27° 30' W
(Section or subdivision)
34.8 chains from NE cor. of Robert Houston D.L.C. 38, T. 11S, R. 3W
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the S 1/4 N 1/4 of Sec. s 3 & 4, Twp. 11S, R. 3W,
W. M., in the county of Linn

5. The (Canal or pipe line) to be miles
in length, terminating in the of Sec., Twp.
(Smallest legal subdivision)
R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

8. The development will consist of one drilled well having a
(Give number of wells, tunnels, etc.)
diameter of eight inches and an estimated depth of 65 feet. It is estimated that 65
feet of the well will require 8 inch steel casing. Depth to water table is estimated
(Kind) (Feet)
static level 12'03"

CANAL SYSTEM OR PIPE LINE—

G 3716

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 3 horse, submersible

Give horsepower and type of motor or engine to be used 3 horse power, single phase, submersible

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
11S	3W	3	NW ¹ / ₄ NW ¹ / ₄	0.2 suppl.
			SW ¹ / ₄ NW ¹ / ₄	6.2 "

Kind of crops raised pasture

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1,361.50.....
- 15. Construction work will begin on or before August 8, 1967.....
- 16. Construction work will be completed on or before August 31, 1967.....
- 17. The water will be completely applied to the proposed use on or before immediately.....

18. If the ground water supply is supplemental to an existing water supply, identify any appli-
cation for permit, permit, certificate or adjudicated right to appropriate water, made or held by the
applicant. W. R. No. 461 - irrigation from Burkhart Creek.....

Appl NO 31538

Charles E Harvosh
(Signature of applicant)

Remarks: Second point of diversion, the well permit applied for, is directly
South, 93 feet, from the existing water irrigation right on Burkhart Creek.
W.R. #461.

This well was drilled to supplement our present water rights on
Burkhart creek due to the fact that the creek is completely dry at the present
time and we have been unable to irrigate our pasture for two months. We have
18-20 head of stock on this pasture and need it badly.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying
maps and data, and return the same for ~~Completion~~
~~Correction and completion~~

In order to retain its priority, this application must be returned to the State Engineer, with correc-
tions on or before ~~November 20th~~, 19 ~~67~~
~~December 11th~~ 67
~~December 19th~~ 67

WITNESS my hand this ~~19th~~ day of ~~September~~, 19 ~~67~~
~~10th~~ ~~October~~ ~~67~~
~~19th~~ ~~October~~ 67

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.013 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; ~~provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.~~

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 17, 1967

Actual construction work shall begin on or before January 18, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 18th day of January, 1968
