

Permit No. G- G 3717

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Robt. K. Hastings and Elizabeth C. Hastings
(Name of applicant)
of Box 111, Harbor, Oregon
(Postoffice Address), county of Curry
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, **SUBJECT TO EXISTING RIGHTS:**

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Cooley Creek
(Name of stream)

Pacific Ocean

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 10 gallons per minute.

3. The use to which the water is to be applied is irrigation supplemental

4. The well or other source is located 1570 ft. N and 3404 ft. W from the NE Cor.
(N. or S.) (E. or W.)
corner of Government Lot 5A, Sec. 23, T41S, R13W, W.M.
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the Government Lot 2 of Sec. 22, Twp. 41S, R. 13W,
Curry
W. M., in the county of

5. The pipeline to be 630 ft. ~~xxxx~~
(Canal or pipe line)
in length, terminating in the Government Lot 1 of Sec. 22, Twp. 41S,
(Smallest legal subdivision)
R. 13W, W. M., the proposed location being shown throughout on the accompanying map.

Whizzer No. 1

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

not artesian

8. The development will consist of 8 in casing steel having a
(Give number of wells, tunnels, etc.)
diameter of 8 inches and an estimated depth of 50 feet. It is estimated that 50
feet of the well will require steel casing. Depth to water table is estimated variable
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

G 3717

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 630 ft.; size at intake 1 1/2 in.; in size at 630 ft. from intake 1 1/2 in.; size at place of use 1 1/2 in.; difference in elevation between intake and place of use, 20 ft. Is grade uniform? yes Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 2 H.P. Elect. centrifugal

Give horsepower and type of motor or engine to be used 2 H.P. Elect.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

630 feet ESE of Hastings Creek
540 NW of Cooley Creek

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
41S	13W	22	NW 1/4 NE 1/4	30
41S	13W	22	NE 1/4 NE 1/4	8

See application No. 43700 as how the well is used in conjunction with other sources. is 38 ✓

(If more space required, attach separate sheet)

Character of soil gravelley-silt-loam

Kind of crops raised lilies

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed0.02..... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 26, 1967

Actual construction work shall begin on or before January 18, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 18th day of January, 1968
