Permit No. G- G 3745

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, David C. Ralston
(Name of applicant)
of Hermiston
(Postoffice Address), county of Umatilla
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated 60 feet above and 900 feet Northwest of the Umatilla River
(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 0.224 cubic feet per second or 100 gallons per minute.

3. The use to which the water is to be applied is Irrigation of garden and field crops.

4. The well or other source is located 2180 ft. S and 2390 ft. W from the NE corner of Section 8
(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE, SW¹, NE¹ of Sec. 8, Twp. 4N, R. 28E, W. M., in the county of Umatilla

5. The _____ to be _____ miles in length, terminating in the _____ of Sec. _____, Twp. _____, R. _____, W. M., the proposed location being shown throughout on the accompanying map.
(Canal or pipe line)
(Smallest legal subdivision)

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well having a diameter of 24 inches and an estimated depth of 14 feet. It is estimated that 14 feet of the well will require 24" Perf. Concrete casing. Depth to water table is estimated one
(Kind) (Feet)

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 700.00
- 15. Construction work will begin on or before Well has been installed. Irrigation system 541-60
- 16. Construction work will be completed on or before July 1, 1968
- 17. The water will be completely applied to the proposed use on or before July 1, 1968

18. If the ground water supply is supplemental to an existing water supply, identify any application, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. The well applied for is supplemental to irrigation from Westland Irrigation District.

Paul C. Miller
(Signature of applicant)

Remarks: The purpose of this project is two-fold. One to irrigate crops and garden products, and the other to lower the water table arising on my farm.

Item # 8 - The well was dug with a backhoe thru 7 ft of soil & sand and into 7 ft of gravel. The gravel is all water bearing. The spoil was back filled around the 24 inch concrete pipe casing.

STATE OF OREGON, }
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed0.06..... cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied issupplemental irrigation

If for irrigation, this appropriation shall be limited to1/80th..... of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed3..... acre feet per acre for each acre irrigated during the irrigation season of each year;provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit isJuly 13, 1967

Actual construction work shall begin on or beforeMarch 7, 1969..... and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this7th..... day ofMarch....., 1968
