STATE ENGINEER  
SALEM OREGON

Permit No. G-38

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, William G. Dick, partner of Dick Brothers Partnership.

(Name of applicant)

of Vogt Block, The Dalles, county of Wasco

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is

situated Eightmile Creek

(Name of stream)

tributary of Fifteenmile Creek

2. The amount of water which the applicant intends to apply to beneficial use is 1.3 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 1412 ft N. and 3398 ft E. from the SW

(N. or S.)

(E. or W.)

Section 36, T. 1 N., R. 13 E., W.M.

(Section or subdivision)

(If preferred, give distance and bearing to section corner)

(If preferred, attach a plan showing the location of the well. Use separate sheet if necessary)

NW 1/4 SE 1/4 of Sec 36 Twp 1 N. R. 13 E.

Wasco

pipe line to be 1 miles

NE 1/4 SE 1/4 of Sec 36 Twp 1 N.

(If preferred, attach a plan showing the location of the well on the accompanying map)

Dick Bros. Well.

DESCRIPTION OF WORK

The applicant desires to use the water from the well to be drilled and cased in accordance with the following description:

If no water is found, the well will be cased and capped, in accordance with law.

(If preferred, attach a plan showing the location of the well)

One well

to be drilled to a depth of 300 feet

The well is to be drilled to the surface of the ground

The well to be drilled to this site, is the domestic well on this same site distant. No irrigation wells in this vicinity.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate, width on top (at water line) \_\_\_\_\_ feet; width on bottom \_\_\_\_\_ feet; depth of water \_\_\_\_\_ feet; grade \_\_\_\_\_ feet fall per one thousand feet.

(b) At \_\_\_\_\_ miles from headgate: width on top (at water line) \_\_\_\_\_ feet; width on bottom \_\_\_\_\_ feet; depth of water \_\_\_\_\_ feet; grade \_\_\_\_\_ feet fall per one thousand feet.

(c) Length of pipe, 5000 ft.; size at intake, 6 in.; size at 2000 ft. from intake, 4 in.; size at place of use, 4 in.; difference in elevation between intake and place of use, 32 ft. Is grade uniform? no Estimated capacity, 1.3 sec. ft.

10. If pumps are to be used, give size and type deep well rotary, anticipated

4"

horsepower and type of motor or engine to be used 40 H.P. electric motor.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a canal, stream, or stream channel, give the distance to the nearest point on each of such channels, and the difference in elevation between the stream bed and the ground surface at the source of development.

The nearest natural stream is Eightmile Creek, about 1 1/4 mile distant.

The ravine, shown on map conveys only the winter run-off from near vicinity, and is dry during irrigation season.

12. Location of area to be irrigated, or place of use

Section	Area (Acres)	Distance (Miles)	Direction	Elevation (Feet)
1 N.	13 E.	36	NE 1/4 SW 1/4	5.19
1 S.	13 E.	36	SW 1/4 SW 1/4	1.00
1 N.	13 E.	36	SE 1/4 SW 1/4	16.34
1 S.	13 E.	36	NW 1/4 SE 1/4	14.07
1 N.	13 E.	36	SW 1/4 SE 1/4	24.61
1 S.	13 E.	36	NE 1/4 SE 1/4	14.77
1 N.	13 E.	36	SE 1/4 SE 1/4	20.00

**MUNICIPAL SUPPLY—**

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

- 14. Estimated cost of proposed works, \$... 8,000. ....
- 15. Construction work will begin on or before ... October 1, 1956 .....
- 16. Construction work will be completed on or before ... October 1, 1957 .....
- 17. The water will be completely applied to the proposed use on or before ... October 1, 1957. ....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. ....

*Alfred B. ...*  
(Signature of Applicant)

Remarks: Description of property, that has been conveyed to applicant and is involved in this application, is enclosed on separate sheets, because of the lengthy description. ....

There being no other irrigation wells in this vicinity, the quantity of water and the depth of well, is a matter of conjecture.

The Ravine shown on map, and known as "Dry Hollow" or "Jap Hollow" is completely dry from May until late autumn, and can be disregarded as a stream to be harmed by irrigation from this proposed well.

STATE OF OREGON.

PERMIT

County of Marion.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.29 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Dick Brothers well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water

The works constructed shall include an air line and pressure gauge or an access port for measuring the adequate to determine water level elevation in the well at all times.

The effective date of this permit is September 22, 1955

The construction work shall begin on or before October 31, 1956 and shall

be completed on or before October 1, 1957

The water to be used for the proposed use shall be made on or before October 1, 1957
