To appropriate the Ground Waters of the State of Oregon

I, Wm L. Franklin (Name of applicant)

of Corvallis (Postoffice Address), county of Benton

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is

4. The well or other source is located 505.44 S. & 216.71 E from the NW 1/4 Cor North Line Section 3

If preferred, give distance and bearing to section corner

The well or other source is located as described. Use separate sheet if necessary

N.W. 1/4 of the N.E. 1/4 of Sec. 3, Twp. 36 N., R. 12 E.

to be miles

of Sec. 3, Twp. 36 N., R. 12 E.

Map showing location being shown throughout on the accompanying map.

The well or other works is

DESCRIPTION OF WORKS

If the water to be utilized is artesian, the works to be used for the control and conservation of the artesian water must be described.

The development will consist of 1 well having a diameter of 6 inches and an estimated depth of 100 feet. It is estimated that 100 feet of steel well pipe casing. Depth to water table is estimated

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type
 Give horsepower and type of motor or engine to be used hp

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract.	Number Acres To Be Irrigated
T 13 S	R 5 W	34	SE 1/4 of the SE 1/4	5.5 Ac

This is to certify that I have examined the foregoing application, together with the accompanying report data and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with correc-

tion on or before , 19

WITNESS my hand this day of , 19

STATE OF OREGON,

PERMIT

County of Marion,

} ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.52 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is Irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year:

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The priority date of this permit is October 18, 1956

Actual construction work shall begin on or before November 20, 1957 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1958

Complete application of the water to the proposed use shall be made on or before October 1, 1959

The permittee shall install and maintain a weir, meter, or other suitable measuring device and shall keep a complete record of the amount of ground water withdrawn.

WITNESS my hand this 20th day of November, 1956.

Lewis A. Stanley STATE ENGINEER

PERMIT

TO APPROPRIATE THE GROUND WATERS OF THE STATE OF OREGON

This instrument was first received in the office of the State Engineer at Salem, Oregon, on the 18 day of October 1956, at 2:45 o'clock P. M.
