

Permit No. G- G 3837

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, City of Phoenix by Frances Steveson
(Name of applicant)
of Phoenix,
(Postoffice Address), county of Jackson
state of Oregon 97535, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation
City of Phoenix incorporated April 7, 1909.

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Anderson Creek, tributary of Bear Creek.
(Name of stream)
tributary of Rogue River.

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 270 gallons per minute,
being 70 g.p.m. from Well #4, 150 g.p.m. from Well #5, and 50 g.p.m. from
3. The use to which the water is to be applied is supplemental municipal use. /Well #4

#4
4. The well or other source is located 330 ft. S. and 340 ft. E. from the W¹/₄ corner of Section 15,
(Section or subdivision)
Well #5 220 feet S. and 260 feet E. from W¹/₄ corner of Section 15,
(If preferable, give distance and bearing to section corner)
Well #6 150 feet S. and 510 feet East from W¹/₄ corner of Section 15,
(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the NW¹/₄ SW¹/₄ of Sec. 15, Twp. 38 S, R. 1 W,
W. M., in the county of Jackson

5. The see remarks. to be miles
(Canal or pipe line)
in length, terminating in the of Sec., Twp.,
(Smallest legal subdivision)
R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Phoenix Wells #4, #5, #6.

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

Water is pumped into Phoenix Well #1 and together with water from
#1 and #2 pumped to 250,000 gallon tank and into city mains.

8. The development will consist of three wells (see attached logs) having a
(Give number of wells, tunnels, etc.)
diameter of inches and an estimated depth of feet. It is estimated that
feet of the well will require casing. Depth to water table is estimated
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

G 3837

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

See remarks.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type three 3" discharge turbine pumps.

Give horsepower and type of motor or engine to be used three 5 H.P. electric motors.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

Wells are approximately 800 feet north of Anderson Creek ...

difference in elevation approximately 50 feet above stream channel.

12. Location of area to be irrigated, or place of use

Township N. or S.			Range E. or W. of Willamette Meridian				Section				Forty-acre Tract				Number Acres To Be Irrigated				
Twp	Range	Sec.	NE¼				NW¼				SW¼				SE¼

		10											X	X	X	X			
		15					X	X	X	X	X	X							
		16	X	X	X	X										X	X		
			Being all lands within or adjacent to the city limits of Phoenix, Ore.																

(If more space required, attach separate sheet)

Character of soil

Kind of crops raised

MUNICIPAL SUPPLY—

13. To supply the city of Phoenix, Oregon.
in Jackson county, having a present population of 1,140 people.
and an estimated population of 1,800 in 19 86

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$.....5,000.00.....
- 15. Construction work will begin on or before one year from date of priority.....
- 16. Construction work will be completed on or before October 1, 1970.....
- 17. The water will be completely applied to the proposed use on or before October 1, 1971.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Registration #GR-1906, Certificate #GR-1839, and Registration #GR-1907, Certificate #GR-1840.

City of Phoenix, Oregon
By Frances Stevenson - Recorder
(Signature of applicant)

Remarks: Pipe line to be used is the existing city water system.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for Completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 8th, 1968

WITNESS my hand this 8th day of November, 1967.

CHRIS L. WHEELER
STATE ENGINEER

ASSISTANT

STATE OF OREGON,

PERMIT

County of Marion,

} ss.

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.60 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from three wells being 0.16 cfs from well No. 4, 0.33 cfs from well No. 5 and 0.11 cfs from well No. 6

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to _____ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed _____ acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 18, 1967

Actual construction work shall begin on or before May 17, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 17th day of May, 1968
