Permit No. G- 4 3838

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, United States of America, Acting by and through the Department of the Army, Corps of Engineers, Walla (Name of applicant) Walla District, of Bldg 602, City County Airport, Walla Walla, Wash., county of Walla Walla (Postoffice Address)

state of Washington, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Columbia River John Day River (Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 150 gallons per minute.

3. The use to which the water is to be applied is General Use in Public Park

4. The well or other source is located ft. and ft. from the corner of (N. or S.) (E. or W.) (Section or subdivision)

4553.3 feet from SW Corner of Section 32 on a bearing of N14°35'41" E.

(If preferable, give distance and bearing to section corner)

Lambert Coordinates N-743,365, E-1,974,940

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW 1/4 of Sec. 32, Twp. 3 N., R. 18 E., W. M., in the county of Gilliam

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. Twp. R.

W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is LePage Park Well No. 1

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one having a diameter of 12 inches and an estimated depth of 250 feet. It is estimated that 70 feet of the well will require 12" steel casing. Depth to water table is estimated 112 (Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

G 3838

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type

Give horsepower and type of motor or engine to be used

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development
 1,100 feet to the John Day River, difference in elevation is 112 feet.

12. Location of area to be irrigated, or place of use Gilliam County

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
3N	18E	32	1/4 NW 1/4	used in
		29	5 1/2 SW 1/4	Public Park
			1/4 1-22-68	

(If more space required, attach separate sheet)

Character of soil silty sand

Kind of crops raised grass

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$... 10,000
- 15. Construction work will begin on or before 1 Jan 68
- 16. Construction work will be completed on or before 1 Jan 69
- 17. The water will be completely applied to the proposed use on or before 1 Jan 69

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. none

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.33 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is public park use in LePage Park

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 18, 1967

Actual construction work shall begin on or before May 17, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 17th day of May, 1968

Chris J. Wheeler
