Permit No. G- G 3856

CERTIFICATE NO. 39554

APPLICATION FOR A PERMIT

# To appropriate the Ground Waters of the State of Oregon

I, Alice G. Flanigan, Recorder, acting for City of Lafayette

(Name of applicant)

of P. O. Box 55, Lafayette, Oregon, county of Yamhill

(Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

Oct. 17, 1878 Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Henry Creek

(Name of stream)

tributary of Yamhill River

2. The amount of water which the applicant intends to apply to beneficial use is 125 cubic feet per second or 125 gallons per minute. (when well is in use)

3. The use to which the water is to be applied is city water system

4. The well or other source is located 585 ft. S. and 100 ft. E. from the N. E. corner of Adolfo S. Blasco and Juana V. Blasco property Section 5

(N. or S.)

(E. or W.)

(Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NW 1/4 of NW 1/4 of Sec. 5, Twp. 4S, R. 3W W. M., in the county of Yamhill

5. The pipeline to be 5 miles in length, terminating in the 5 of Sec. 5, Twp. 4S, R. 3W, W. M., the proposed location being shown throughout on the accompanying map.

(Canal or pipe line)

(Smallest legal subdivision)

6. The name of the well or other works is Manuel Gill Well

## DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

175 foot well, submersible turbine pump, and 360 feet of pipe to carry water to join old line (existing)

8. The development will consist of one well having a diameter of 7-5/8 inches and an estimated depth of 175 feet. It is estimated that 175 feet of the well will require welded, Gage 250 casing. Depth to water table is estimated 10

(Give number of wells, tunnels, etc.)

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

G 3856

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ....360..... ft.; size at intake .....4..... in.; in size at ..... ft. from intake ..... in.; size at place of use .....4..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ....Yes..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type 7½ h.p. turbine pump, submersible

Give horsepower and type of motor or engine to be used 7½ h.p. electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development  
About 50 ft. from creek; 6 ft. difference in elevation

12. Location of area to be irrigated, or place of use .....

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated			
4S	3W	6	SW¼ NE¼				
			SW¼ NW¼				
			NW¼ SW¼				
			SW¼ SW¼				
			SE¼ SW¼				
			SW¼ SE¼				
			SE¼ SE¼				
						W½ NE¼	
						N½ NW¼	
			4S	4W	1	SE¼ NE¼	
E½ SE¼							
						NE¼ NE¼	

(If more space required, attach separate sheet)

Character of soil .....

Kind of crops raised .....

MUNICIPAL SUPPLY—

13. To supply the city of Lafayette  
in Washill county, having a present population of 632  
and an estimated population of 660 in 1966.

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 3,750.00
- 15. Construction work will begin on or before .....
- 16. Construction work will be completed on or before June, 1968
- 17. The water will be completely applied to the proposed use on or before June 15, 1968
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Permit No. 25666; Registration No. GR-1492; Permit No. 6230; Permit No. 12598

City of Lafayette  
By Alice G. Flaminian Recorder  
(Signature of applicant)

Remarks: .....

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for Completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before January 15th, 1968.

WITNESS my hand this 15th day of November, 1967

CHRIS L. WHEELER STATE ENGINEER  
By [Signature] ASSISTANT

STATE OF OREGON, }  
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.28 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to \_\_\_\_\_ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed \_\_\_\_\_ acre feet per acre for each acre irrigated during the irrigation season of each year; \_\_\_\_\_

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is October 13, 1967

Actual construction work shall begin on or before May 17, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 17th day of May 19 68

*Chris L. Wheeler*
