APPLICATION FOR A PERMIT

# To appropriate the Ground Waters of the State of Oregon

I, MILTON E VAN VOORNIS  
(Name of applicant)  
of P.O. BOX 571, CHILOQUIN, county of KLAMATH  
(Postoffice Address)  
state of OREGON, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated WILLIAMSON RIVER  
(Name of stream)  
tributary of \_\_\_\_\_

2. The amount of water which the applicant intends to apply to beneficial use is \_\_\_\_\_ cubic feet per second or 250 gallons per minute. (ESTIMATED MAX DEMAND)

3. The use to which the water is to be applied is DOMESTIC

4. The well or other source is located 843 ft. N and 50 ft. W from the SW corner of THE SE 1/4 OF SECTION 7  
(N. or S.) (E. or W.) (Section or subdivision)  
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)  
being within the SE 1/4 OF THE SW 1/4 of Sec. 7, Twp. 35S, R. 7E W. M., in the county of KLAMATH

5. The NOT APPLICABLE to be \_\_\_\_\_ miles  
(Canal or pipe line)  
in length, terminating in the \_\_\_\_\_ of Sec. \_\_\_\_\_, Twp. \_\_\_\_\_, R. \_\_\_\_\_, W. M., the proposed location being shown throughout on the accompanying map.  
(Smallest legal subdivision)

6. The name of the well or other works is LATAKOMIE SHORES ESTATES WELL No. 1

### DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.  
NOT APPLICABLE

8. The development will consist of ONE WELL having a  
(Give number of wells, tunnels, etc.)  
diameter of 8 inches and an estimated depth of 250 feet. It is estimated that 120 feet of the well will require STEEL casing. Depth to water table is estimated 50  
(Kind) (Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) NOT APPLICABLE feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake, ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type PRESENTLY HAVE 60 GAL PER MINUTE PUMP INSTALLED, SUBMERSIBLE TYPE

Give horsepower and type of motor or engine to be used 2 HORSEPOWER WITH ELECTRIC MOTOR

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development NOT APPLICABLE

12. Location of area to be irrigated, or place of use NOT APPLICABLE

| Township N. or S. | Range E. or W. of Willamette Meridian | Section | Forty-acre Tract | Number Acres To Be Irrigated |      |
|-------------------|---------------------------------------|---------|------------------|------------------------------|------|
| 355               | 7E                                    | 7       | SE 1/4 OF SW 1/4 | 40                           | Down |
| 355               | 7E                                    | 7       | SW 1/4 OF SW 1/4 | APPROX. 7                    | 11   |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |
|                   |                                       |         |                  |                              |      |

(If more space required, attach separate sheet)

Character of soil .....

Kind of crops raised .....

MUNICIPAL SUPPLY—

13. To supply the city of NOT APPLICABLE  
in \_\_\_\_\_ county, having a present population of \_\_\_\_\_  
and an estimated population of \_\_\_\_\_ in 19\_\_\_\_\_

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 15,000
- 15. Construction work will begin on or before AUG. 1967
- 16. Construction work will be completed on or before JULY 1970 (ESTIMATED)
- 17. The water will be completely applied to the proposed use on or before JULY 1975 (ESTIMATED)
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. NOT APPLICABLE

William F. Van Voorhis  
(Signature of applicant)

Remarks: SEE COVER LETTER

ESTIMATED MAXIMUM POPULATION IS 280 PEOPLE

STATE OF OREGON, }  
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for Correction and Completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before May 7th, 1968.

WITNESS my hand this 7th day of March, 1968.

CHRIS L. WHEELER

STATE ENGINEER

By Darryl W. Johnson  
ASSISTANT

STATE OF OREGON, }  
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.2 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well No. 1

The use to which this water is to be applied is domestic

If for irrigation, this appropriation shall be limited to \_\_\_\_\_ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed \_\_\_\_\_ acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 15, 1968

Actual construction work shall begin on or before May 31, 1969 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 31st day of May 1968
