

Permit No. G-3929

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, McCORMICK & BAXTER CREOSOTING COMPANY

(Name of applicant)

of P. O. BOX 3048 PORTLAND, 97208, county of MULTNOMAH

(Postoffice Address)

state of OREGON, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River

(Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is cubic feet per second or 1000 gallons per minute.

3. The use to which the water is to be applied is Industrial usage - condensers, boilers, etc.

4. The well or other source is located ft. and ft. from the corner of

(N. or S.)

(E. or W.)

(Section or subdivision)

N 14° 59' W 4466.3 ft. New well to NW Cor Sec. 7

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SW 1/4 of SW 1/4 of Sec. 7, Twp. IN., R. 2E

W. M., in the county of Multnomah

5. The Not Applicable to be miles

(Canal or pipe line)

in length, terminating in the of Sec. Twp.

(Smallest legal subdivision)

R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Plant well #2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of One well having a

(Give number of wells, tunnels, etc.)

diameter of 12 inches and an estimated depth of 95 feet. It is estimated that 95

feet of the well will require Steel casing. Depth to water table is estimated 25'

(Kind)

(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... 750' ..... ft.; size at intake ..... 6" ..... in.; in size at ..... 6" ..... ft. from intake ..... 6" ..... in.; size at place of use ..... 6" ..... in.; difference in elevation between intake and place of use, Negligible ..... ft. Is grade uniform? ..... - ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type Layne & Bowler Model 50-12RL-4 vertical turbine pump.

Give horsepower and type of motor or engine to be used 50 hp 3Ø 1750 RPM vertical holloshaft motor with non-reverse ratchet

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development Approximately 1000' from ships chanal Willamette River - Approximately 25 - 30' difference elevation between stream and ground surface at well site.

12. Location of area to be irrigated, or place of use Plant use only.

Township N. or S.	Range E. or W. of Willamette-Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
		SW ¼ of SW ¼ Sec. 7 TWP. IN., RNG 2E W.M.		

(if more space required; attach separate sheet)

Character of soil Sand fill

Kind of crops raised

MUNICIPAL SUPPLY—

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 9,500.00.....
- 15. Construction work will begin on or before Mid December 1967.....
- 16. Construction work will be completed on or before March 31, 1968.....
- 17. The water will be completely applied to the proposed use on or before Est. 1 April 1968.....
- 18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Plant well #1 Registration #GR4270 Certificate GR4121.....

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 2.22 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is Industrial

If for irrigation, this appropriation shall be limited to \_\_\_\_\_ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed \_\_\_\_\_ acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is February 21, 1968

Actual construction work shall begin on or before July 22, 1969 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1969

Complete application of the water to the proposed use shall be made on or before October 1, 1970

WITNESS my hand this 22nd day of July, 1968
