

Permit No. G- G 4063

APPLICATION FOR A PERMIT

To Appropriate the Ground Waters of the State of Oregon

I, Harlan Nelson (Name of applicant)

of 1510 Pearl Street N. E. Salem, Oregon 97303, county of Marion (Postoffice Address)

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Labish Drainage Ditch (Name of stream) tributary of Willamette River

2. The amount of water which the applicant intends to apply to beneficial use is 200 cubic feet per second or 200 gallons per minute.

3. The use to which the water is to be applied is Irrigation

4. The well or other source is located 42 ft. N. and 9 ft. East from the S.W. corner of Labish Gardens FR Lot 12 from point of beginning (Section or subdivision) 403 A. S & 170 ft W from N 1/4 cor Sec 32 (If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary) being within the NE 1/4 NW 1/4 of Sec. 32, Twp. 6 S., R. 2 West, W. M., in the county of Marion

5. The (Canal or pipe line) to be miles in length, terminating in the (Smallest legal subdivision) of Sec. Twp. R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1 Well (Give number of wells, tunnels, etc.) having a diameter of 8 inches and an estimated depth of 91 feet. It is estimated that 91 feet of the well will require Steel (Kind) casing. Depth to water table is estimated 6 (Feet)

CANAL SYSTEM OR PIPE LINE—

G 4063

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 2 inch Centrifugal

Give horsepower and type of motor or engine to be used Electric motor 7½ horsepower

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development 491 feet difference in elevation 5 feet

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
6 S.	2 west	29 - 32	See Remarks	

Beginning at an iron pipe in the center line of the public road and in the West line of Lot Twelve (12) of Labish Gardens, 4.13 chains Northerly from the Southwest corner of said Lot in Township 6 South, Range 2 West of the Willamette Meridian, in Marion County, Oregon; thence North 3' East along said West line 8.08 Chains to the Northeast corner of Lot Eleven (11) of said tract; thence North 67° 11' East in the center of the big ditch 7.67 chains to an iron bar in the East line of Lot Twelve (12); thence South 3' West along the east line of said Lot Twelve (12) for a distance of 4.25 chains to an iron pipe in the center line of aforesaid public road extended Easterly; thence South 46° West along the center line of said public road if so extended 9.815 chains to the point of beginning.

(If more space required, attach separate sheet)

Character of soil Peat 4' 1003

Kind of crops raised Onions

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$682.50.....
- 15. Construction work will begin on or before March 9, 1968.....
- 16. Construction work will be completed on or before March 20, 1968.....
- 17. The water will be completely applied to the proposed use on or before June 1, 1968.....

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. None.....

Harlan Nelson
(Signature of applicant)

Remarks: Terrell drilled March 1968

No land filed on is irrigated from Labish Drainage Ditch. Will cancel any rights appertenant to this land from the ditch.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.06 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be further limited to appropriation of water only to the extent that it does not impair or substantially interfere with existing surface water rights of others.

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is March 27, 1968

Actual construction work shall begin on or before January 8, 1970 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1970

Complete application of the water to the proposed use shall be made on or before October 1, 1971

WITNESS my hand this 8th day of January, 1969
