

Permit No. G-412

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, John Hudspeth and Floreine Hudspeth (Name of applicant)

of P. O. Box 458, Irineville, county of Crook

state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Ochoco Creek (Name of stream) Crooked River & Derivatives tributary of River

2. The amount of water which the applicant intends to apply to beneficial use is #1- 175000 #2- 175000 cubic feet per second or gallons per minute.

3. The use to which the water is to be applied is #1- irrigation #2- irrigation (imp. industrial)

4. The well or other source is located #1- S6300' E-3110' from NW corner of Sec. 33, T. 24N, R. 12E, S. 1W corner of #2- S5100' E-1905' from NW corner of Sec. 33, T. 24N, R. 12E, S. 1W (Section or subdivision)

(If preferable, give distance and bearing to section corner)

If there is more than one well, it must be described. Use separate sheet if necessary.

being within the SE of Sec. 33, Twp. 24N, R. 12E, S. 1W W. M. in the county of Crook

5. The well irrigates an area of 1060 acres, miles in length, terminating in the of Sec. Twp.

R. W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is #1- #2-

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of 1-2 wells, having a diameter of 12 inches and an estimated depth of 117 feet. It is estimated that feet of the well will require standard steel casing. Depth to water table is estimated

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, #1-600 ft.; size at intake, #1-4" in.; in size at from intake in.; size at place of use #2-4" in.; difference in elevation between intake and place of use, ft. Is grade uniform? #2-yes. Estimated capacity, #1 & #2- 2/3 sec. ft.

10. If pumps are to be used, give size and type #1- 4" turbine #2- 4" turbine
 Give horsepower and type of motor or engine to be used #1- 15 Hp electric #2- 20 Hp electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development
 #1 & #2 - more than 1/4 mile from Colono Creek

12. Location of area to be irrigated, or place of use #1 & #2 - supplemental

Township N or S	Range E or W of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
24 S	1 E	33	SW 1/4, SW 1/4 NW 1/4, SW 1/4 SE 1/4, SW 1/4 SW 1/4, SW 1/4 NE 1/4, SW 1/4 NW 1/4, SW 1/4	0.5 0.5 1.0 0.5 0.5 1.0 1.0
(If more space required, attach separate sheet)				

Character of soil silt loam
 Kind of crops raised hay grain

MUNICIPAL SUPPLY—

12. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

14. Estimated cost of proposed works, \$ ~~#2-2400.00~~ ^{#1-3000.00}

15. Construction work will begin on or before _____ completed

16. Construction work will be completed on or before _____ completed

17. The water will be completely applied to the proposed use on or before October 1, 1955

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.66 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Wells Nos. 1 and 2

The use to which this water is to be applied is irrigation and supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 30, 1955

Actual construction work shall begin on or before January 25, 1958 and shall

thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 19 58

Complete application of the water to the proposed use shall be made on or before October 1, 19 59

WITNESS my hand this 25th day of January 19 57.

Lewis A. Stanley STATE ENGINEER

Application No. G- 81
