STATE ENGINEER
SALEM, OREGON

Permit No. G-424

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Bruce Braba (Name of applicant)

of Route 2, Corvallis (Postoffice Address), county of Benton

state of OREGON, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Willamette River (Name of stream)

tributary of Columbia River

2. The amount of water which the applicant intends to apply to beneficial use is 0.52 cubic feet per second or 235 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 862.1 feet N. 57 degrees 57 min. W. of SE corner D.L.C. #87 ft. (N. or S.) and 862.1 feet N. 57 degrees 57 min. W. of SE corner D.L.C. #87 ft. (E. or W.) from the corner of (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NE1/4 of SW1/4 of Sec. 31, Twp. 11S, R. 4W W. M., in the county of Linn

5. The pipeline (Canal or pipe line) to be 0.284 miles in length, terminating in the NE1/4 of SW1/4 (Smallest legal subdivision) of Sec. 31, Twp. 11S, R. 4W, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is #2

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well supplementary to a second well having a diameter of 10 inches and an estimated depth of 33 1/2 feet. It is estimated that 31 feet of the well will require steel (Kind) casing. Depth to water table is estimated 13 1/2 (Feet)

CANAL SYSTEM OR PIPE LINE

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, 1500 ft.; size at intake, 5 in.; in size at ft. from intake in.; size at place of use 5 in.; difference in elevation between intake and place of use, 5 ft. Is grade uniform? YES Estimated capacity, 0.52 sec. ft.

10. If pumps are to be used, give size and type 4 inch turbine

Give horsepower and type of motor or engine to be used 20 hp Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
11S	4W	31	SE of SW	8.5
"	"	"	NE of SW	24.4
"	"	"	NW of SE	14.3
				47.2

(If more space required, attach separate sheet)

Character of soil loam

Kind of crops raised pasture

MUNICIPAL SUPPLY—

11. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

14. Estimated cost of proposed works, \$ 7000.00

15. Construction work will begin on or before May 1956

16. Construction work will be completed on or before July 1957

17. The water will be completely applied to the proposed use on or before July, 1957

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. See accompanying registration forms

B. M. B. B. B.
(Signature of applicant)

Remarks: This well was previously an 8 inch and is being reconditioned and drilled to 10 inch diameter. It was probably originally drilled in 1952 and has been in use for irrigation since that time. This well is called number 2 and is used in conjunction with well #1 on the same main line.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____

6

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____, 19_____

WITNESS my hand this _____ day of _____, 19_____

STATE ENGINEER

STATE OF OREGON,

PERMIT

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.52 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Well #2

The use to which this water is to be applied is irrigation (supplemental)

If for irrigation, this appropriation shall be limited to 1/80 of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; and shall be further limited to a diversion of not to exceed 0.52 c.f.s.; provided further that the amount of water allowed herein, together with the amount secured under any other right existing for the same lands shall not exceed the limitation allowed herein,

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is November 1, 1956

Actual construction work shall begin on or before January 25, 1958 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1959

Complete application of the water to the proposed use shall be made on or before October 1, 1959

WITNESS my hand this 25th day of January, 1957

Lewis A. Stanley STATE ENGINEER
