following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is  
situated Near Tyoeer Creek (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is \_\_\_\_\_ cubic  
feet per second or 20 gallons per minute.

3. The use to which the water is to be applied is Household and irrigated property

Supplement water

4. The well or other source is located 1159 ft. S and 1448 ft. W from the NE  
corner of Section 25 (Section or subdivision)

~~The well is 180 feet from N. property line beginning at a point 1325 S. and~~  
(If preferable, give distance and bearing to section corner)

~~1554 Ft. West of the Willamette Meridian, thence W. 326 Ft., thence 264 Ft. of right~~  
of way of Oregon ~~(If there is more than one well, each must be described. Use separate sheet if necessary)~~

being within the NW 1/4 NE 1/4 of Sec. 25, Twp. 39 S., R. 8 W.,

W. M., in the county of Josephine

5. The Pipe line (Canal or pipe line) to be 180 Feet ft/ids  
in length, terminating in the Middle of property in of Sec. 25, Twp. 39 S.,  
(Smallest legal subdivision)

R. \_\_\_\_\_, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is \_\_\_\_\_

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the  
supply when not in use must be described.

8. The development will consist of One well (Give number of wells, tunnels, etc.) having a  
diameter of 6 inches and an estimated depth of 126 feet. It is estimated that \_\_\_\_\_  
feet of the well will require (regular) 86 Ft. casing. Depth to water table is estimated 126  
(Kind) (Feet)

Water runs over and is utilized when not pumping.

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(b) At ..... miles from headgate: width on top (at water line) ..... feet; width on bottom ..... feet; depth of water ..... feet; grade ..... feet fall per one thousand feet.

(c) Length of pipe, ..... ft.; size at intake ..... in.; in size at ..... ft. from intake ..... in.; size at place of use ..... in.; difference in elevation between intake and place of use, ..... ft. Is grade uniform? ..... Estimated capacity, ..... sec. ft.

10. If pumps are to be used, give size and type ..... One horse electric pump

Give horsepower and type of motor or engine to be used ..... same as above

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use *Same as before This is supplement water*

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
39 S	8 W	25	SW $\frac{1}{4}$ NE $\frac{1}{4}$	Two

(If more space required, attach separate sheet)

Character of soil ..... *parous* .....

Kind of crops raised ..... Row crops and orchard .....

MUNICIPAL SUPPLY—

13. To supply the city of .....  
in ..... county, having a present population of .....  
and an estimated population of ..... in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1,000
- 15. Construction work will begin on or before Well has been drilled
- 16. Construction work will be completed on or before October 15, 1968
- 17. The water will be completely applied to the proposed use on or before November 30, 1968

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. G 2257

*This is to be a supplement. The present water is insufficient.*  
*John W England*  
(Signature of applicant)

Remarks: The present water system we have is not adequate.

STATE OF OREGON, }  
County of Marion, } ss.

By *Larry W. [Signature]*  
STATE ENGINEER ASSISTANT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.025 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is August 13, 1968

Actual construction work shall begin on or before March 11, 1970 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1970

Complete application of the water to the proposed use shall be made on or before October 1, 1971

WITNESS my hand this 11th day of March, 1969

*Chris L. Wheeler*
