

Permit No. G- G 4257

CERTIFICATE NO. 38525

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

FRED WALKER
P. O. Box 393
Irrigon, Oregon 97844

I, Fred Walker (Name of applicant)
of Box 393 Irrigon (Postoffice Address), county of Morrow,
state of Oregon, do hereby make application for a permit to appropriate the
following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is
situated Columbia River (Name of stream)

tributary of

2. The amount of water which the applicant intends to apply to beneficial use is cubic
feet per second or 90 gallons per minute.

3. The use to which the water is to be applied is irrigation in
addition to flood water from West Extension Irrigation District

4. The well or other source is located 432 ft. N (N. or S.) and 204 1/2 ft. W (E. or W.) from the S. E.
corner of Sec. 19 (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the SE 1/4 of the SW 1/4 of Sec. 19, Twp. 5 N., R. 27 E.
W. M., in the county of Morrow

5. The (Canal or pipe line) to be miles
in length, terminating in the (Smallest legal subdivision) of Sec., Twp.,
R., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the
supply when not in use must be described.

Spinkler system - 5 HP. single phase
submersible pump - to cover 97 A using 14 spinklers
at one time - eleven settings in all.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a
diameter of 8 inches and an estimated depth of 65 feet. It is estimated that 65
feet of the well will require steel (Kind) casing. Depth to water table is estimated 38 (Feet)

CANAL SYSTEM OR PIPE LINE—

G 4257

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 1 $2\frac{1}{2}$ " Submersible

Give horsepower and type of motor or engine to be used 1 5 H.P. Single phase Electric

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

over 1/4 mile from river

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract		Number Acres To Be Irrigated
5-N	27-E	19	SE	SW	9.7

(If more space required, attach separate sheet)

Character of soil Sandy

Kind of crops raised grass pasture

Handwritten markings at the bottom left of the page.

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 3000.00
- 15. Construction work will begin on or before finished
- 16. Construction work will be completed on or before finished
- 17. The water will be completely applied to the proposed use on or before Oct. 1st 1968

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. is supplemental to other water supply furnished by West Extension Irrigation District.
Fred Walker
(Signature of applicant)

Remarks:
The only evidence that I know of, of my right to use the district's water is the records here in their Irrigation Office. I know I have the right to use it because their water master gives me the water on my day to use it.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.12 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is supplemental irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 9, 1968

Actual construction work shall begin on or before March 11, 1970 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1970

Complete application of the water to the proposed use shall be made on or before October 1, 1971

WITNESS my hand this 11th day of March, 1969
