Joe A. Monroe (P.M.)
Marion A. Monroe
(Signature of applicant)

Remarks: *This well was drilled in March 1964 and has been in use since then. The Park was opened in June, 1965 and the use of this well for Mobile Home Park. (We did not know we had to file for this permit) The Park is located on Highway 395 and 20, just South of Elwood News Lumber Co. The well is used for the family home, for each trailer space, for the Park's Wash House, and for irrigating the lawns. We have room to expand, and may put in more spaces, as we see our way clear to do this.*

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for Completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before November 27th, 1968....

WITNESS my hand this 27th day of September, 1968..

ASSISTANT

STATE OF OREGON,
County of Marion, } ss.

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.10 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is domestic use of one family and use in thirty-six unit trailer park including the irrigation of not to exceed one-half acre lawn and garden

If for irrigation, this appropriation shall be limited to ----- of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed ----- acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is September 17, 1968

Actual construction work shall begin on or before April 9, 1970 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1970

Complete application of the water to the proposed use shall be made on or before October 1, 1971

WITNESS my hand this 9th day of April, 1969
