(Give number of wells, tunnels, etc.)
(Kind)
(Feet)

CANAL SYSTEM OR PIPE LINE—

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake, in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 4" Berklay Pump

Give horsepower and type of motor or engine to be used

10 H.P. Electric pump

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

800' from Oregon Slough 30'

12. Location of area to be irrigated/or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	SECTION U.S.G.
1 N	1 E	4	NE 1/4 NE 1/4	
2 N	1 E	33	SE 1/4 SE 1/4	

(If more space required, attach separate sheet)

Character of soil Sandy loam

Kind of crops raised

MUNICIPAL SUPPLY

13. To supply the city of _____
in _____ county, having a present population of _____
and an estimated population of _____ in 19_____

- 14. Estimated cost of proposed works, \$ 18000 to 22000
- 15. Construction work will begin on or before 30 days
- 16. Construction work will be completed on or before Dec. 31, 1966
- 17. The water will be completely applied to the proposed use on or before Dec. 31, 1966

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. _____

Reman Sweetack Farm Inc
F. J. Herman
(Signature of applicant) *Pres.*

Remarks: _____
Would appreciate it very much if we could rush this through
as we are short on water. Thank you.

STATE OF OREGON, }
County of Marion, } ss.

This is to certify that I have examined the foregoing application, together with the accompanying maps and data, and return the same for _____ completion

In order to retain its priority, this application must be returned to the State Engineer, with corrections on or before _____ November 12 _____, 19 56.

WITNESS my hand this _____ 11th day of _____ October _____, 1956

By LEWIS A. STANLEY
STATE ENGINEER
Chas L. Wheeler
Chas L. Wheeler, Assistant
SALEEM OREGON gw

County of Marion,

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.18 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from Karnan Village Well

The use to which this water is to be applied is municipal (all of the purposes for which water could be used in a city under a right initiated for municipal use)

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The priority date of this permit is January 9, 1957

Actual construction work shall begin on or before January 25, 1958 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1958

Complete application of the water to the proposed use shall be made on or before October 1, 1959. The permittee shall instal and maintain a weir, meter, or other suitable measuring device and shall keep a complete record of the amount of ground water withdrawn.

WITNESS my hand this 25th day of January, 1957

Lewis A. Stanley

STATE ENGINEER
