

Permit No. G- G 4425

APPLICATION FOR A PERMIT

To appropriate the Ground Waters of the State of Oregon

I, Harold Estep (Name of applicant)
of Eugene, R. R. 7, Box 120, 97405, county of Lane
(Postoffice Address)
state of Oregon, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

If the applicant is a corporation, give date and place of incorporation

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Coast Fork, Flows into Willamette
(Name of stream)
tributary of

2. The amount of water which the applicant intends to apply to beneficial use is _____ cubic feet per second or 50 gallons per minute.

3. The use to which the water is to be applied is irrigation

4. The well or other source is located 860 ft. N and 640 ft. W from the ~~SE~~
(N. or S.) (E. or W.)
corner of Section 12
(Section or subdivision)
860 FEET North of SE 50' East of SE corner of Section 12, South East Corner.
(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)
being within the SE 1/4 SE 1/4 of Sec. 12, Twp. 18 S., R. 3 WEST
W. M., in the county of Lane

5. The _____ to be _____ miles
(Canal or pipe line)
in length, terminating in the _____ of Sec. _____, Twp. _____,
(Smallest legal subdivision)
R. _____, W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is _____

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of ONE DEEP DRILLED WELL having a
(Give number of wells, tunnels, etc.)
diameter of 6 inches inches and an estimated depth of 82 feet. It is estimated that 82
feet of the well will require 82' Steel casing. Depth to water table is estimated 60'
(Kind) (Feet)

9. (a) Give dimensions at each point of canal where materially changed in size, stating miles from headgate. At headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(b) At miles from headgate: width on top (at water line) feet; width on bottom feet; depth of water feet; grade feet fall per one thousand feet.

(c) Length of pipe, ft.; size at intake in.; in size at ft. from intake in.; size at place of use in.; difference in elevation between intake and place of use, ft. Is grade uniform? Estimated capacity, sec. ft.

10. If pumps are to be used, give size and type 2 HP Submersible.

Give horsepower and type of motor or engine to be used Myers.

11. If the location of the well, tunnel, or other development work is less than one-fourth mile from a natural stream or stream channel, give the distance to the nearest point on each of such channels and the difference in elevation between the stream bed and the ground surface at the source of development

12. Location of area to be irrigated, or place of use

Township N. or S.	Range E. or W. of Willamette Meridian	Section	Forty-acre Tract	Number Acres To Be Irrigated
----------------------	---	---------	------------------	---------------------------------

18 South 3 W. 12 ~~SE 1/4 SE 1/4~~ 7

The East 384 feet of the following Tract:

Beginning at a point on the South line of section 12 in Township 18 South of Range 3 West of the Willamette Meridian which is 6.25 Chains North 88° 51' West from the Southeast corner of said Section 12, and running thence North 88° 51' West 23.00 Chains to the center of the old channel of the Coast Fork of the Willamette River thence along the center of said channel North 30° 22' East 7.49 Chains, thence North 49° 21' East 25 Chains more or less to the center of the present channel of said stream and to a intersection with a line extended North 0° 44' West from said place of beginning thence South 0° 44' East 23.30 Chains, more or less to the place of beginning. Containing in part hereby conveyed 11.8 acres more or less

all in Section 12, Township 18 South of Range 3 West of the Willamette Meridian, in Lane County, State of Oregon.

The land which is herein conveyed lies between the East line of the tract above described and a line parallel therewith and 384 feet to the Westward distance therefrom.

MUNICIPAL SUPPLY—

13. To supply the city of
in county, having a present population of
and an estimated population of in 19.....

ANSWER QUESTIONS 14, 15, 16, 17 AND 18 IN ALL CASES

- 14. Estimated cost of proposed works, \$ 1461.16
- 15. Construction work will begin on or before Sept. 23, 1968
- 16. Construction work will be completed on or before OCT 1, 1968
- 17. The water will be completely applied to the proposed use on or before OCT, 1, 1968

18. If the ground water supply is supplemental to an existing water supply, identify any application for permit, permit, certificate or adjudicated right to appropriate water, made or held by the applicant. Registration No. GR-1313 Certificate No. GR-1430. July 1950.

Harold Estep

PERMIT

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 0.09 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is irrigation

If for irrigation, this appropriation shall be limited to 1/80th of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2 1/2 acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right allowed herein shall be limited to any deficiency in the available supply of any prior right existing for the same land and shall not exceed the limitation allowed herein

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is December 3, 1968

Actual construction work shall begin on or before July 11, 1970 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1970

Complete application of the water to the proposed use shall be made on or before October 1, 1971

WITNESS my hand this 11th day of July, 1969

Chris L. Wheeler
